the 2nd edition of this book is essentially an extended version of the 1st and provides a very sound overview of the most important special functions of fractional calculus it has been updated with material from many recent papers and includes several surveys of important results known before the publication of the 1st edition but not covered there as a result of researchers and scientists increasing interest in pure as well as applied mathematics in non conventional models particularly those using fractional calculus mittag leffler

functions have caught the interest of the scientific community focusing on the theory of mittag leffler functions this volume offers a self contained comprehensive treatment ranging from rather elementary matters to the latest research results in addition to the theory the authors devote some sections of the work to applications treating various situations and processes in viscoelasticity physics hydrodynamics diffusion and wave phenomena as well as stochastics in particular the mittag leffler functions make it possible to describe phenomena in processes that progress or decay too slowly to be represented by classical functions like the exponential function and related special functions the book is intended for a broad audience comprising graduate students university instructors and scientists in the field of pure and applied mathematics as well as researchers in applied sciences like mathematical physics theoretical chemistry bio mathematics control theory and several other related areas

these papers stem from the isott meeting held in churchill college cambridge from july 27th to 30th 1986 although the sun did communications and discussions were as lively and informative and some views the meeting was conducted in a generally informal way which allowed maximum time for discussion but the relatively unstructured nature of the debates made them unsuitable for publication the amount of editing necessary meant that the printed version of the exchanges would bear little resemblance to the original hence their omission all the papers presented here have been scrutinized and retyped in a standard format however the diverse interests of isott s members reflected in the wide spectrum of the material submitted made total editorial uniformity an unrealistic goal complete consistency in the use of symbols abbreviations and units seemed less important than speed of publication we are very grateful to all those who contributed to the smooth running of the meeting itself and to the production of this book
