in this classic work now updated the author of culture and imperialism reveals the hidden agendas and distortions of fact that underlie even the most objective coverage of the islamic world from the iranian hostage crisis through the gulf war and the bombing of the world trade center the american news media have portrayed islam as a monolithic entity synonymous with terrorism and religious hysteria at the same time islamic countries use islam to justify unrepresentative and often repressive regimes combining political commentary with literary criticism covering islam continues edward said s lifelong investigation of the ways in which language not only describes but also defines political reality

from the iranian hostage crisis through the gulf war and the world trade centre bombing the west has been haunted by a spectre called islam as portrayed by the news media and by a chorus of government academic and corporate experts islam is synonymous with terrorism and religious hysteria at the same time islamic countries use islam to justify unrepresentative and often oppressive regimes in this landmark work for which he has written a new introduction one of our foremost public thinkers examines the origins and repercussions of the media s monolithic images of islam combining political commentary with literary criticism edward said reveals the hidden assumptions and distortions of fact that underlie even the most objective coverage of the islamic world

evaluates the american media s coverage of news stories concerning islam and shows how misconceptions about the middle east have been promoted

this is the first systematic critique of edward said s influential work orientalism a book that for almost three decades has received wide acclaim voluminous commentary and translation into more than fifteen languages said s main thesis was that the western image of the east was heavily biased by colonialist attitudes racism and more than two centuries of political exploitation although said s critique was controversial the impact of his ideas has been a pervasive rethinking of western perceptions of eastern cultures plus a tendency to view all scholarship in oriental studies as tainted by considerations of power and prejudice in this thorough reconsideration of said s famous work ibn warraq argues that said s case against the west is seriously flawed warraq accuses said of not only willfully misinterpreting the work of many scholars but also of systematically misrepresenting western civilization as a whole with example after example he shows that ever since the greeks western

civilization has always had a strand in its very makeup that has accepted non westerners with open arms and has ever been open to foreign ideas the author also criticizes said for inadequate methodology incoherent arguments and a faulty historical understanding he points out not only said s tendentious interpretations but historical howlers that would make a sophomore blush warraq further looks at the destructive influence of said s study on the history of western painting especially of the 19th century and shows how once again the epigones of said have succeeded in relegating thousands of first class paintings to the lofts and storage rooms of major museums an extended appendix reconsiders the value of 18th and 19th century orientalist scholars and artists whose work fell into disrepute as a result of said s work

edward said s orientalism now more than fifty years old has to be one of the most frequently cited books among academics in a wide range of disciplines and the most frequently assigned book to undergraduates at colleges among the common questions raised in response to said s book did scholars in western europe provide crucial support to the imperialist colonialist activities of european regimes are their writings on islam laden with denigrating eroticized distorting biases that have left an indelible impact on western society what is the orientalism invented by europe and what is its impact today however one question has been less raised or less has been done about the question how were the orientalist writings of european scholars of islam received among their muslim contemporaries an international team of contributors rectify this oversight in this volume

using many examples covering islam demonstrates that the media and the government business establishment have produced a dangerously misleading and oversimplified portrait of islam and muslims based on ignorance inaccuracy and prejudice

this work presents key selections from said s works whether writing on the hebron massacre or on the fight for palestinian self determination said s uncompromising intelligence casts light on every subject he tackles

the islamic orient studies the travel accounts of four british travelers during the nineteenth century through a critical analysis of these works the author examines and questions edward said s concept of orientalism and orientalist discourse his argument that the orientalist view had such a strong influence on westerners that they invariably perceived the orient through the lens of orientalism on the contrary the author argues no single factor had an overwhelming influence on them she shows that westerners often struggled with their own conceptions of the orient and being away for long periods from their homelands were in fact able to stand between cultures and view them both as insiders and outsiders the literary devices used to examine these writings are structure characterization satire landscape description and word choice as also the social and political milieu of the writers the major influences in the author s analysis are said foucault abdel malek and marie louise pratt

how did the victorians perceive muslims in the british empire and beyond talking about victorian britain s conceptions and misconceptions of the muslim world this book helps in understanding the apprehensions and misapprehensions about islam in the nineteenth century

the noted critic and a palestinian now teaching at columbia university examines the way in which the west observes the arabs
