competitive economics produces an enormous abundance of goods and services but at an intolerable environmental and social cost competition has become an end in itself which leads to detrimental effects on nature society and future generations a change of paradigm is needed business should respect the ecological and social limits in which it operates and embed its activities in the natural and social systems this book promotes a collaborative attitude of doing business based on a positive view of the self and others theoretical contributions reflections cases examples and initiatives collected in the book show that a collaborative enterprise is not only possible but also a feasible and desirable alternative to the current self defeating managerial models innovative firms seeking to build long term mutually beneficial relationships with all of their stakeholders while producing values for their business ecosystems represent well grounded hopes for a really sustainable future

organizing for competitive advantage and profit how can businesses best tap diverse capabilities to generate new ideas manufacture products and properly execute strategy in this groundbreaking thoroughly researched book organizational expert charles heckscher argues that in a global network of creation and production the dominant organizations will be those that master the still uncoded skills of collaboration replacing the giants of the past century who thrived on the mastery of bureaucratic systems though there has been much discussion of teamwork and alliances in recent decades heckscher argues that we are still a long way from fully understanding how to manage fluid and inconstant collaborations and that this is an area dominated far more by rhetoric than reality using a combination of theory and extensive real life case studies heckscher pushes the boundary of organization design and illustrates how companies are able to create new effective patterns of interactions and how they can build a culture and infrastructure necessary to support them for organizational leaders in search of long term competitive advantage the collaborative enterprise offers sound research findings and invaluable insights

the overall functions of a government impact a wide range of sectors in society it is imperative for governments to work at full capacity and potential in order to ensure quality progress for its citizens driving efficiency in local government using a collaborative enterprise architecture
