Many of us tend to live as though Jesus represents the spiritual part of our lives. We don't clearly see how he relates to the rest of our experiences, desires and habits. How can Jesus, the Bible and Christianity become more than a compartmentalized part of our lives? Highly regarded New Testament scholar and popular teacher Jonathan Pennington argues that we need to recover the lost biblical image of Jesus as the one true philosopher who teaches us how to experience the fullness of our humanity in the kingdom of God. Jesus teaches us what is good, right and beautiful and offers answers to life's big questions: what it means to be human, how to be happy, how to order our emotions and how we should conduct our relationships. This book brings Jesus and Christianity into dialogue with the ancient philosophers who asked the same big questions about finding meaningful happiness. It helps us rediscover biblical Christianity as a whole-life philosophy one that addresses our greatest human questions and helps us live meaningful and flourishing lives.

This book represents conversations between philosophers and theologians on several issues of current theological interest: God, the church, theological authority, atonement, the Holy Spirit, religious ethics, the problem of evil and other topics are debated by top-notch theologians and philosophers of various theological and philosophical persuasions. Since contemporary philosophers and theologians seldom communicate professionally, this book represents a fascinating and highly unusual cross-disciplinary conversation.

A purpose and plan William Temple was trained as a philosopher and lectured on philosophy at Oxford 1904 but his concern for labor education, journalism and the Church of England led him away from philosophy as a profession enthroned in 1942 as Archbishop of Canterbury. Temple persisted in applying his Christian position to the solution of the problems of the day. He will be remembered for his contributions in many areas of life and thought. His work in the ecumenical movement and his writings in theology and social ethics attest to the variety and depth of his concern but of special significance is his contribution toward the construction of a distinctly Christian philosophy relevant to the twentieth century. Although Temple did not work out a systematic formulation of his Christian philosophy, the bases for a Christian philosophy are nevertheless evident in his position. It is the purpose of the present work to enter sympathetically and critically into the major facets of Temple's position and to weave together as far as is legitimate the separate strands of his thought into a meaningful even if not a

completely unified christian philosophy the intent is not simply to present temple s conclusions on a variety of philosophical and theological issues rather temple s position is developed systematically and the arguments for the conclusions at which he arrived are carefully ex pounded
