this book emerges out of the notion that security council s title vii  
interventions follow a decision making process that weighs not only on  
legal interpretations of threat to international peace and security but  
also on common triggers and frequently cited moral reasoning thus it  
examines the main factors that inform the council s title vii decision  
making process by comparatively analyzing its involvement in bosnia iraq  
rwanda and sierra leone the focus of analysis is on the council s  
elements of concern strategies used by actors and employed by the  
security council the roles historical and contemporary contexts play in  
the development containment prosecution and sustenance of violent  
conflicts and the level of consistency of communicative interactions  
among the security council and international human rights practitioners  
a comparative analysis of security council resolutions u n documents  
amnesty international annual reports new york times and london guardian  
editorials and articles on violent conflicts in bosnia iraq rwanda and  
sierra leone between 1990 and 2000 suggests that the council s primary  
elements of concern were the protection of state functions diplomatic  
operations and regime ties however the council frequently and  
conveniently utilized gross human rights violations as the moral and  
legal basis for its title vii decisions

the definitive resource for designing and implementing evidence based
