in western thought it has been persistently assumed that in moral and political matters people should rely on the inner voice of conscience rather than on external authorities laws and regulations this volume investigates this concept examining the development of the western politics of conscience from socrates to the present and the formation of the western ethico political subject the work opens with a discussion of the ambiguous role of conscience in politics contesting the claim that it is the best defense against totalitarianism it then look back at canonical authors from the church fathers and luther to rousseau and derrida to show how the experience of conscience constitutes the foundation of western ethics and politics this unique work not only synthesizes philosophical and political insights but also pays attention to political theology to provide a compelling and innovative argument that the experience of conscience has always been at the core of the political western tradition an engaging and accessible text it will appeal to political theorists and philosophers as well as theologians and those interested in the critique of the western civilization

bachelor thesis from the year 2016 in the subject didactics for the subject english literature works grade 1 1 university of göttingen language english abstract in the famous title quote from richard iii william shakespeare has his protagonist disregard the concept of conscience as a mere word an invention of no further

consequence to a brave person meanwhile hamlet complains that conscience does make cowards of us all and thereby infers a strong significance of conscience to mankind these popular though seemingly contradictory statements raise the question just what exact understanding of said moral concept shakespeare wanted to relay to his audience what was conscience to him his audience and his contemporary writers was conscience seen as but a word a cowardly excuse for inaction or as an innate concept dwelling in every man what were the underlying principles of his set of moral values both the author and his contemporaries had an interest towards both the specific moral phenomenon of conscience and the intricacies of the human persona and its inner moral values in the two plays at hand richard iii and hamlet conscience is displayed as an innate concept in their beliefs towards this concept heroes and villains do not contradict but complement each other all relevant scenes from the two plays taken together exhibit a comprehensive image of the discourse of conscience in the elizabethan age it ranges from personified character and externality to an inner contemplation with god and man s own soul from an exhilarating righteous feeling to purgatory like torment on earth it shows a broad understanding of the term much more extensive than our modern perception of it which has narrowed down to the single meaning of discernment between good and evil nevertheless conscience stands in a long tradition of philosophical debates and shakespeare adds his own touch to it with richard iii and hamlet leaving modern eyes with a better appreciation of concept of conscience
