según jean baudrillard el resorte principal de la sociedad moderna debe localizarse en la esfera del consumo y en el sistema cultural en general y no como se ha pensado durante mucho tiempo en la esfera de la producción económica al igual que sucede con la producción artística intelectual y científica la cultura se produce como un signo y como un valor de cambio en la sociedad moderna el consumo define las fases en las que los productos son generados

como signos y los signos como productos esta colección de ensayos continúa con los problemas planteados en el sistema de los objetos y la sociedad de consumo también publicados por siglo xxi a la vez que propone un análisis de la forma del signo tal como marx buscaba un análisis de la forma del producto en su crítica de la economía política el producto como valor de uso y como valor de cambio y el signo como significante y significado el autor analiza estos dos niveles enfrentándose a todos los obstáculos semiológicos que se encuentra para concluir realizando una crítica de la economía política clásica tan radical como la que hizo marx
