humans are at home on land not in the sea we know more about the surface  
of mars than about our own deep sea the ocean contains the highest  
mountains on earth and is home to countless mysterious sea creatures that  
have barely been studied due to this lack of knowledge we underestimate the  
crucial role the ocean plays for the planet and therefore also for humanity for  
example in the fight against climate change this book aims to change that  
based on the latest scientific insights it seeks to immerse the reader through  
storytelling in the hidden beauty and complex workings of the ocean the  
authors explain how ocean warming acidification overfishing and pollution  
threaten not only its fragile flora and fauna but also us yet all is not lost  
technological revolutions offer hope if we act in time the unknown sea  
explores how we can rise to the challenges the unknown sea is officially  
endorsed as an ocean decade activity under the united nations decade of  
ocean science for sustainable development 2021 2030 this recognition  
highlights the book s contribution to advancing ocean knowledge and  
supporting global efforts towards a more sustainable and resilient ocean  
through its insights and perspectives the unknown sea aligns with the ocean  
decade s mission to transform ocean science into actionable solutions for  
society
