the yearbook on space policy edited by the european space policy institute espi is the reference publication analysing space policy developments each year it presents issues and trends in space policy and the space sector as a whole its scope is global and its perspective is european the yearbook also links space policy with other policy areas it highlights specific events and issues and provides useful insights data and information on space activities the first part of the yearbook sets out a comprehensive overview of the economic political technological and institutional trends that have affected space activities the second part of the yearbook offers a more analytical perspective on the yearly espi theme and consists of external contributions written by professionals with diverse backgrounds and areas of expertise the third part of the yearbook carries forward the character of the yearbook as an archive of space activities the yearbook is designed for government decision makers and agencies industry professionals as well as the service sectors researchers and scientists and the interested public

bovine tuberculosis btb is a significant zoonotic pathogen with a global distribution and a considerable economic impact it has a notoriously complex epidemiology varying by affected region and often involving multiple host species here we present an international collection of papers that address both national and international factors impacting on the control of bovine tuberculosis we hope this research topic will provide a forum which may generate a greater understanding of the disease in a wider context and inform future eradication efforts through the design of more effective interventions

the planctomycetes verrucomicrobia chlamydiae pvc and related phyla have recently emerged as fascinating subjects for research in evolutionary cell biology ecology biotechnology evolution and human health this interest is prompted by particular characteristics observed in the pvc superphylum that are otherwise rarely observed in bacteria but are however still poorly described or understood such as the presence of a complex endomembrane system or compacted dna throughout most of the cell cycle therefore the members of the pvc superphylum represent an excellent example of the value of studying bacteria other than classical models

how did isis a widely hated massively outnumbered and ludicrously outgunned organisation manage to occupy over 120 cities towns and villages from the southern philippines to western libya seeking to understand isis s combat effectiveness omar ashour analyses the military and tactical innovations of isis and their predecessors in iraq syria libya and egypt he shows how their capacity to mix conventional military tactics with innovative

guerrilla warfare and urban terrorism strategies allowed isis to expand and endure beyond expectations

this book is a festschrift in honor of professor rod fort one of the leading contributors to the emerging field of sports economics in the past half century professor fort's path breaking research in the 1990s and 2000s both laid down an agenda for research in sports economics and popularized the application of economic analysis to sports issues for lay readers the contributors to the volume are among the leading scholars in modern sports economics they put issues highlighted in professor fort's research in the context of current issues topics discussed include competitive balance and outcome uncertainty estimation gender wage discrimination in us professional soccer and the paradox of fan loyalty

case study from the year 2014 in the subject business economics offline marketing and online marketing grade 13 university of the americas puebla language english abstract the following paper is an analysis about walt disney it is an investigation about the business model of the walt disney company and its objective is to turn out the characteristics in terms of values and strategies which made the company to that what it is today one of the most successful companies and well known brands in the world in the first part of the paper we want to examine why disney has been successful for so long and explain thereby what its core competences and competitive advantages are in the second section we will have a look on what michael eisner did to rejuvenate disney and what he did to increase the income in his first for years finally in the last part we will evaluate disney's policy of acquisitions define the value they are adding to their different divisions and conclude with the explanation about how that translates into financial performance

the 15th report covers the years 1885 86

covers the period from 1790 to 1905 in the times of london
