the three basic questions of ebs are 1 what bio social psychological and cultural characteristics of human beings influence which characteristics of the built environment 2 what effects do which aspects of which environments have on which groups of people under what circumstances and when why and how and 3 given this two way interaction between people and environments there must be mechanisms that link them what are these mechanisms focusing on answers to these and other questions culture architecture and design discusses the relationship between culture the built environment and design by showing that the purpose of design is to create environments that suit users and is therefore user oriented design must also be based on knowledge of how people and environments interact thus design needs to respond to culture in discussing 1 the nature and role of environment behavior studies ebs 2 the types of

environments 3 the importance of culture 4 preference choice and design 5 the nature of culture 6 the scale of culture and 7 how to make culture usable amos rapoport states that there needs to be a change from designing for one's own culture to understanding and designing for users' cultures and basing design on research in ebs anthropology and other relevant fields such changes should transform architecture and design so that it in fact does what it claims to do and is supposed to do create better i.e. more supportive environments

hong kong has one of the lowest crime rates in the world and is one of the most prosperous societies but much of the population lives in low quality high density housing through qualitative interviews with long term residents of public housing this book explores residents' experience of high density space it traces the development of hong kong housing forms and analyses how people's expectations of domestic space have been affected by social mobility and shifting cultural values of space lifestyle and design the accompanying award winning documentary film a thousand pieces of gold will enable readers to experience these spaces and listen to revealing interviews with the tenants

compiled from official gazette beginning with 1876 the volumes have included also decisions of united states courts decisions of secretary of interior opinions of attorney general and important decisions of state courts in relation to patents trade marks etc 1869 94 not in congressional set checklist of u.s. public documents 1789 1909 p 530

a range of current approaches to architecture are neglected in our contemporary writings on design philosophies this book argues that the model of function and the concept of a functional building that we have inherited from the twentieth century modernists is limited in scope and detracts from a full understanding of the purposes served by the built environment it simply does not cover the range of functions that buildings can afford nor is it tied in a conceptually clear manner to our contemporary concepts of architectural theory based on abraham maslow's theory of human motivations and following on from lang's widely used text creating architectural theory the role of the behavioral sciences in environmental design lang and moleski here propose a new model of functionalism that responds to numerous observations on the inadequacy of current ways of thinking about functionalism in architecture and urban design copiously illustrated the book puts forward this model and then goes on to discuss in detail each function of buildings and urban environments
