golan argues that reactionary issues such as anti urbanism the return to the soil regionalism corporatism xenophobia and doubts about the new technology became central to cultural and art historical discourse focusing on the overlap of avant garde and middle of the road production she investigates the import of these issues not only in painting sculpture and architecture concentrating on the work of leger picasso le corbusier ozenfant derain the surrealists and the so called naifs but also in the decorative arts in the spectacle of world and colonial fairs and in literature throughout she finds evidence that artists turned from the aesthetics of the machine age toward a more organic naturalistic art this leads her to ask whether the famous and momentous shift of the avant garde from paris to new york in 1939 did not in fact begin two decades earlier in 1918

in the tradition of the distinguished douglas mcintyre art program this lavishly illustrated and superbly printed book is a rich readable history of abstract painting in canada the story begins in the 1920s with the sometimes eccentric but remarkable work rooted in symbolism and theosophy of pioneers such as kathleen munn bertram brooker and lawren harris two decades later the automatistes canada s first truly independent avant garde art movement burst onto the scene in montreal after the second world war the urge to abstraction spread across canada manifesting itself in significant regional movements vancouver painters retained a british flavour while in toronto the painters eleven looked south to new york montreal s plasticiens launched their own razor edged interpretation of the european tradition of geometric abstraction in the sixties and seventies the prairies were influenced by clement greenberg s post painterly abstraction while halifax became a hub of conceptual art and concrete painting the book continues through the eighties and nineties during which critics largely denounced painting and concludes in the twenty first century with abstract painting alive and well again in the studios of canada s young artists a monumental tome containing 200 color reproductions it mines a rich vein of art history ripe for international discovery
