drawing upon theories of critical legal pluralism and psychological theories of narrative identity this book argues for an understanding of popular culture as legal authority unmediated by translation into state law in narrating our identities we draw upon collective cultural narratives and our narrative nomos obligational selves become the nexus for law and popular culture as mutually constitutive discourse the author demonstrates the efficacy and desirability of applying a pluralist legal analysis to examine a much broader scope of subject matter than is possible through the restricted perspective of state law alone the study considers whether presumptively illegal acts might actually be instances of a re imagined alternative legality and the concomitant implications as an illustrative example works of critical dystopia and the beliefs and behaviours of eco animal terrorists can be understood as shared narrative and normative commitments that constitute law just as fully as does the state when it legislates and adjudicates this book will be of great interest to academics and scholars of law and popular culture as well as those involved in interdisciplinary work in legal pluralism

this book seeks to answer the question what is holiness what do we talk about when we talk about holiness we might describe many things as holy but as socrates says what is the essential aspect by which all holy acts are holy sanctum sanctorum gives an account of the holy from within the christian participatory tradition and argues that holiness is included in a special category of divine names that christian metaphysics calls transcendentals which are five being one truth goodness and beauty moreover holiness stands in a hierarchical relationship to the other five transcendentals as the culmination or concentration of the rest only by understanding holiness as the head of the transcendentals as the transcendental can one account for all the complexity the idea of the holy conjures therefore holiness is the transcendental of the transcendentals it adds the aspect of reverence to existence and as such it is constituted by the formula sanctum sanctorum holy of holies which extends from the divine nature through the triune life to all creation
