this is the story of the naval war in northern european waters following the critical if inconclusive battle of jutland there is a popular misconception that the battle marked the end of the operational career of the german high sea fleet the reality is much more complex the german battle fleet may have been quiescent in the north sea but it supported an ambitious amphibious campaign in the baltic while an ever more bitter commerce war was waged by u boats and smaller warships of both sides fought a gruelling campaign in the waters of the english channel and the belgian coast while the book focuses primarily on the royal navy as the dominant maritime force it also analyses the struggles of the beleaguered german navy as it sought to find ways to break the tightening stranglehold of the allied blockade it includes an assessment of the small but increasingly significant supporting role played by the french navy from its bases in northern france while the continuing conflict in the baltic is explored as the germans increased pressure on russian territory and the russian fleet despite the descent into revolution still managed to strike heavy blows at the imperial german navy this period was one of great change the royal navy improved the way that ships and their crews were organised for battle and there were great leaps in communications and in command and control aviation and undersea operations including

mine warfare developed at breakneck pace both germany and russia undertook far more naval innovation and technological development in the final years of the war than is often realised and by 1918 the protagonists were fighting what was in every way a multi dimensional maritime war the forerunner of the form of naval conflict of the remainder of the twentieth century the author deals with the entry into the conflict of the united states and the increasing commitment of the us navy to operations in northern european waters many of the foundations of success in the next war were laid by the usn at this time and there are strong links between the performance of all the navies and their experiences in 1939 45 not only were doctrine and technology shaped by the events of the first war so were the cultures of the various services and the characters of the individuals who would go on to serve in the highest ranks in the next all of this makes the 1916 18 period so significant in naval history in addition to his huge historical knowledge the author brings his own extensive personal experience of naval operations and command at sea to this study and this fusion of history with practical understanding sheds a unique and fascinating perspective on his analysis of the conflict

he is like a towering mountain his achievements inspiring awe in all mages he is like the ocean his magnanimity inspiring reverence in all he is like the clouds his sudden disappearance leaving everyone bewildered

a historic profile of the english city of canterbury during world war i and the conflict s effect on the region and its people canterbury had been a garrison town for many years before the war when hostilities began between britain and germany it was home to the buffs east kent regiment who were immediately mobilized for war they were replaced by the men of the west kent yeomanry a territorial unit along with their fellow

territorials the kent cyclists who despite their mode of transport were an infantry battalion of the british army who were formed in 1908 they were tasked with guarding key points along with patrolling the kent coastline during the first world war canterbury was one of the county s main recruiting areas particularly for those men from east kent by the end of the war thousands of men had enthusiastically made their way to the town s drill hall in st peter s lane to sign on the dotted line so that they could do their bit for king and country in the nation s hour of need statistics showed that one in four men had enlisted in the british army meanwhile the town s civilian population did their part for the war some worked in the munitions factories and the kent vad hospital while others worked as air raid wardens these were extraordinary times that relied on ordinary people to pull together and do whatever they could for the common good through researching local newspapers of the day along with letters diaries photographs parish magazines trade journals contemporary printed pamphlets and more author stephen wynn details the stories of this dramatic era

the complete world war ii record of one of the most celebrated warships in american history made famous by her final commanding officer john f kennedy fleshing out the little known chronicle of this patrol torpedo boat under two officers during the swirling battles around guadalcanal john domagalski brings pt 109 and her crew back to life once again and in doing so honors all who served in the patrol torpedo service military review in these mainly nocturnal fights when the japanese navy was at its apex america s small fast boat flotillas darted in among the enemy fleet like a barroom brawl with the lights turned out bryant larsen and rollin westholm preceded kennedy as commanders of pt 109 and their fights leading the ship and its brave crew hold second to none in the chronicles of us navy daring as the battles moved on across the pacific the

pt boat flotillas gained confidence even as the japanese too learned lessons on how to destroy them under its third and final commander kennedy  
pt 109 met its fate as a japanese destroyer suddenly emerged from a dark mist and rammed it in half two crewmen were killed immediately but  
kennedy formerly on the swim team at harvard was able to shepherd his wounded and others to refuge his unsurpassed gallantry cannot resist  
retelling yet the courage of the book s previous commanders have not until now seen the light of day this book provides the complete record of  
pt 109 in the pacific as well as a valuable glimpse of how the american navy s daring and initiative found its full playing field in world war ii
