Quicklets Learn More Read Less. Malcolm Gladwell is a staff writer for *The New Yorker* and author of a number of multiple bestsellers including *The Tipping Point*, *Outliers*, and *Blink*. Gladwell was inspired to write *Blink* after three police officers detained him because he resembled a rapist. When Gladwell realized that he and the rapist only shared a similar haircut, he began to think about how much emphasis people put on their instant perceptions. *Blink* is Gladwell's venture into the world of rapid cognition. Through his research, Gladwell found that humans are strongly influenced by the rapid judgments they make on a daily basis. However, because these judgments are made in the blink of an eye, we have trouble understanding them. Gladwell argues that when practiced and perfected, we have the ability to improve the accuracy of our snap judgments. In the end, better snap judgments can lead to a better world. *Blink* is a very popular book that has spent time as a #1 national bestseller. While most feedback on the book has been positive, there have been a number of critics that claim Gladwell does not form one cohesive argument and that he relies on flimsy evidence. Yet, these critics have not affected the book's popularity, as it has sold over 2 million copies.

Have you ever wondered how ultra-successful people became that way? You know what I'm talking about: it's the top athletes, the billionaires, the geniuses. Don't you ever had those splitting thoughts of how great it'd be like to be the child of Bill Gates or Jeff Bezos? Is it really true that successful people are so superhuman? Or is there more to it? Maybe our birth dates matter? Maybe our background really does matter? There's so many maybes and so little truth. Isn't it we're living in a world littered with general knowledge and much more than ever? We're starving for real practical wisdom. Malcolm Gladwell dug deep into truth in the book *Outliers*. Every detail was taken into account; everything is backed by pure truth, no hocus-pocus, no filters. Just the truth about how really successful people became that way. Here's what you'll discover: Chapter 1, why the rich get richer. Nope, it's not what you think. Chapter 2 is 10,000 hours: really a rule if then how does it affect us?

chapter 3 does a genius iq really matter chapter 6 the story of your ancestors your future nope not your grandparents we're talking about many more generations ago chapter 8 the truth about hard work it's time to cut through the b's and so much more this is more than just the story of success outliers is about radical transparency radical truth in an unprecedented age of opportunities are you ready to uncover the truth behind our successful people really became that way apply it to your own life scroll up click on the buy now button to continue reading why grab summareads summary books unparalleled book summaries learn more with less time bye fluff get the vital principles of a full length book in a limited time come comprehensive handy companion that can be reviewed side by side the original book hello facts we will never inject our opinions into the original works of the authors actionable now because knowledge is only potential power disclaimer this is an unauthorized book summary we are not affiliated or sponsored by the original authors or publishers in anyway in every summary book you'll realize that it is a great resource for personal development and growth nevertheless we encourage purchasing both the original books and our summary book as your retention for the subject matter will be greatly amplified
