identifies over two thousand species answers common questions about mushrooms and gives advice on collecting preserving and cooking with mushrooms

in this thoughtful book gary fine explores how americans attempt to give meaning to the natural world that surrounds them although nature has often been treated as an unproblematic reality fine suggests that the meanings we assign to the natural environment are culturally grounded in other words there is no nature separate from culture he calls this process of cultural construction and interpretation naturework of course there is no denying the biological reality of trees mountains earthquakes and hurricanes but he argues they must be interpreted to be made meaningful fine supports this claim by examining the fascinating world of mushrooming based on three years of field research with mushroomers at local and national forays morel tales highlights the extensive range of meanings that mushrooms have for mushroomers fine details how mushroomers talk about their finds turning their experiences into fish stories the one that got away war stories and treasure tales how mushroomers routinely joke about dying from or killing others with misidentified mushrooms and how this dark humor contributes to the sense of community among collectors he also describes the sometimes friendly sometimes tense relations between amateur mushroom collectors and professional mycologists fine extends his argument to show that the elaboration of cultural meanings found among mushroom collectors is equally applicable to birders butterfly collectors rock hounds and other naturalists

cool tools really work a cool tool can be any tried and true book gadget software video map hardware material or website the reviews in this book were written by those of us who have actually used the tool and others like it we only review things old or new that we like and ignore the rest this is a curated collection of the best cool tools for the kitchen it is not intended as a shopping list or checklist consider this a jumping off point for thinking and re thinking about what s possible in your kitchen some kitchens can certainly operate with fewer and or different tools some might require more but everything we ve included here is well worth knowing about

all that the rain promises and more is certainly the best guide to fungi and may in fact be a long lasting masterpiece in guide writing for all subjects roger mcknight the new york times mushrooms appeal to all kinds of people and so will this handy pocket guide which includes key information for more than 200 western mushrooms over 200 edible and poisonous mushrooms are depicted with simple checklists of their identifying features as david arora celebrates the fun in fungi with the same engaging bend of wit and wisdom fact and fancy that has made his comprehensive guide mushrooms demystified the mushroom hunter s bible the best guide for the beginner i d buy it no matter where i lived in north america whole earth catalog

this book is a guide to the fungi of kansas it will familiarize you with some of the most common and some of the most beautiful of the state s fungal flora but it is designed to do much more it will introduce you to a variety of ways to enjoy mushrooms for most people they are things of beauty and wonder to be discovered unexpectedly on a walk in the woods some try to preserve and communicate their sense of awe on film others only want to find delectable morsels for the table a few strive to find rarities or to identify mysterious strangers this book will help you take the first steps in all these approaches to the world of mushrooming

a beautifully written portrait of the people who collect and distribute wild mushrooms food and nature writing at its finest eugenia bone author of mycophilia a rollicking narrative cook delivers vivid and cinematic scenes on every page the wall street journal in the dark corners of america s forests grow culinary treasures chefs pay top dollar to showcase these elusive and enchanting ingredients on their menus whether dressing up a filet mignon with smoky morels or shaving luxurious white truffles over pasta the most elegant restaurants across the country now feature one of nature s last truly wild foods the uncultivated uncontrollable mushroom the mushroom hunters by contrast are a rough lot they live in the wilderness and move with the seasons motivated by gold rush desires they haul improbable quantities of fungi from the woods for cash langdon cook embeds himself in this shadowy subculture reporting from both rural fringes and big city eateries with the flair of a novelist uncovering along the way what might be the last gasp of frontier style capitalism meet doug an ex logger and crabber now an itinerant mushroom picker trying to pay his bills and stay out of trouble jeremy a former cook turned wild food entrepreneur crisscrossing the continent to build a business amid cutthroat competition their friend matt an up and coming chef whose kitchen alchemy is turning heads and the woman who inspires them all rich with the science and lore of edible fungi from seductive chanterelles to exotic porcini the mushroom hunters is equal parts gonzo travelogue and culinary history lesson a fast paced character driven tour through a world that is by turns secretive dangerous and quintessentially american

winner international association of culinary professionals jane grigson award finalist international association of culinary professionals in the culinary history category throughout history people have had a complex and confusing relationship with mushrooms are fungi food or medicine beneficial decomposers or deadly toadstools ready to kill anyone foolhardy enough to eat them in fact there is truth in all these statements in chanterelle dreams amanita nightmares author greg marley reveals some of

the wonders and mysteries of mushrooms and our conflicting human reactions to them with tales from around the world marley a seasoned mushroom expert explains that some cultures are mycophilic mushroom loving like those of russia and eastern europe while others are intensely mycophobic mushroom fearing including the us he shares stories from china japan and korea where mushrooms are interwoven into the fabric of daily life as food medicine fable and folklore and from slavic countries where whole families leave villages and cities during rainy periods of the late summer and fall and traipse into the forests for mushroom collecting excursions from the famous amanita phalloides aka the death cap reputed killer of emperor claudius in the first century ad to the beloved chanterelle cantharellus cibarius known by at least eighty nine different common names in almost twenty five languages chanterelle dreams amanita nightmares explores the ways that mushrooms have shaped societies all over the globe this fascinating and fresh look at mushrooms their natural history their uses and abuses their pleasures and dangers is a splendid introduction to both fungi themselves and to our human fascination with them from useful descriptions of the most foolproof edible species to revealing stories about hallucinogenic or poisonous yet often beautiful fungi marley s long and passionate experience will inform and inspire readers with the stories of these dark and mysterious denizens of our forest floor

here s a comprehensive and clinically specific reference on toxicology the 3rd edition includes chapters on overdose during rapid sequence intubation and conscious sedation management of complications of thrombolytic agents and the application of hyperbaric medicine in toxicology provides the perfect balance of basic pharmacokinetics and clinical management contributions are by experts in the field
