brilliantly presented exciting creepy highly recommended and one report is creepier than the next strange disappearances of people a very interesting book but also creepy to read at the same time where did all the people disappear to many questions creepy truly creepy all cases show the same patterns beyond any plausible explanation there is something that the sane human mind cannot comprehend that makes the whole thing frighteningly creepy great reads well it is somehow creepy creepy events what s going on there creepy ideas but well described creepy a list of creepy missing cases but they have it in them oppressive and interesting this book highlights various missing 411 cases and their features it is very good for getting an impression of the topic people disappear all over the world repeatedly the number of cases reaches into the thousands but these people don t simply vanish because they want to start a new life commit suicide or fall into a hole they disappear without a trace the circumstances of their disappearances are often mysterious sometimes deeply contradictory and illogical search dogs find no trail search teams find no trace of the missing for weeks and helicopters even with the latest methods like flir find nothing absolutely nothing no equipment clothing signs of a struggle or evidence of an attack by animals or humans just nothing and when something is found it s often under completely irrational circumstances then suddenly some victims reappear usually without shoes often in places where search teams have already looked many times often so far from the location where they disappeared that it is hard or even impossible to imagine how they could have gotten there most of them are dead but without a determinable cause of death the few who survive usually have no memory of what happened some report being cared for by a large dog a big wolf or some kind of kangaroo preventing them from freezing in the cold in some cases such a creature has been seen by witnesses such beings have also been reported in the mysterious incidents at the so called skinwalker ranch the list of peculiarities in these cases is even longer it seems as though something strange is going on sometimes the victims clothes are found neatly folded next to them or a short distance away sometimes they wear their clothes inside out or clothing that doesn t belong to them sometimes they are found naked even though winter temperatures prevail and they would have had to walk kilometers through deep snow and barely passable mountainous forests to get from the place where their clothes were later found to the place where their body was found naked and barefoot they supposedly traveled 20 kilometers through ice and snow over rugged terrain impossible

scary a scary book full of strange cases this phenomenon is so exciting mysterious and sometimes unbelievable that you can t stop reading very exciting and scary at the same time the list of missing persons we are examining here seems to be just the tip of the iceberg the cases where the facts appear so completely senseless where victims are found at inhuman distances where victims seem to be missing time cases where children are as helpless as adults disappearing from one moment to the next these cases number in the hundreds perhaps even thousands in many cases the facts are too unclear perhaps they are poorly documented perhaps there are misunderstandings such cases although often just as incredible are mostly left aside the cases we are discussing here show crystal clear inconsistencies some so numerous that they must be classified as mysterious almost as a miracle a miracle either in how the victim is found again or how

the victim could have disappeared at all sometimes how they could survive days and weeks in the wilderness sometimes how the body can remain so well preserved after years these cases are difficult to explain it is not an exaggeration to call them inexplicable they are eerie and mysterious nothing fits together facts victim profiles witness statements everything contradicts itself and yet these people are missing some reappear others remain forever lost in the nirvana of time and space
