the emphasis of this book is to explore two major philosophical influences in contemporary human geography namely logical positivism and marxism and to explore the relationships between philosophy methodology and geographical research rather than being a biography of david harvey the book contributes to the understanding of one of the most innovative and iconoclastic scholars in contemporary anglo american human geography

there is no question that david harvey s work has been one of the most important influential and imaginative contributions to the development of human geography since the second world war his readings of marx are arresting and original a remarkably fresh return to the foundational texts of historical materialism derek gregory author of geographical imaginations

david harvey is unquestionably the most influential as well as the most cited geographer of his generation his reputation extends well beyond geography to sociology planning architecture anthropology literary studies and political science this book brings together for the first time seminal articles published over three decades on the tensions between

geographical knowledges and political power and on the capitalist production of space classic essays reprinted here include on the history and present condition of geography the geography of capitalist accumulation and the spatial fix hegel von thunen and marx two new chapters represent the author s most recent thinking on cartographic identities and social movements david harvey s persistent challenge to the claims of ethical neutrality on behalf of science and geography runs like a thread throughout the book he seeks to explain the geopolitics of capitalism and to ground spatial theory in social justice in the process he engages with overlooked or misrepresented figures in the history of geography placing them in the context of intellectual history the presence here of kant von thunen humboldt lattimore leopold alongside marx hegel heidegger darwin malthus foucault and many others shows the deep roots and significance of geographical thought at the same time david harvey s telling observations of current social environmental and political trends show just how vital that thought is to the understanding of the world as it is and as it might be

fiscal crises have cascaded across much of the developing world with devastating results from mexico to indonesia russia and argentina the extreme volatility in contemporary political economic fortunes seems to mock our best efforts to understand the forces that drive development in the world economy david harvey is the single most important geographer writing today and a leading social theorist of our age offering a comprehensive critique of contemporary capitalism in this fascinating book he shows the way forward for just such an understanding enlarging upon the key themes in his recent work the development of neoliberalism the spread of inequalities across the globe and space as a key theoretical concept both a major declaration of a new research programme and a concise introduction to david harvey s central concerns this book will be essential reading for scholars and students across the humanities and social sciences

a major rereading of marx s critique of political economy now a classic of marxian economics the limits to capital provides one of the best theoretical guides to the history and geography of capitalist development in this edition harvey updates his seminal text with a substantial discussion of the turmoil in world markets today delving into concepts such as fictitious capital and uneven geographical development harvey takes the reader step by step through layers of crisis formation beginning with marx s controversial argument concerning the falling rate of profit and closing with a timely foray into the geopolitical and geographical implications of marx s work

the study of human geography has changed from the quantitative revolution of the 1960s to the recent cultural turn new theories approaches methodologies and arguments have completely remapped the discipline of geography methods and techniques in human geography provides the fullest available introduction and assessment of these changes in both quantitative and qualitative geography clearly concisely and generously written methods and techniques in human geography will become the students companion to one of the most widely misunderstood contested and fascinating areas of human geography geography social science contents introduction exploring geographical data testing hypotheses measuring associations multivariate analysis generalised linear models and categorical data analysis spatial allocation spatial interaction spatial statistics spatial models and spatial structure space and time systems and geographical information systems investigating behaviour and perception qualitative methods marxist analysis in human geography feminist geographies postmodern geographies

for undergraduate students of geography traces the emergence of the discipline considering its roots in antiquity the changes that have taken place and how the division into physical and

human branches has been detrimental to understanding many critical issues copublished with longman scientific and technical uk acidic paper annotation copyright by book news inc portland or
