repackage of a classic sociology text in which the author develops the idea of resistance to social and economic pressures

the ai revolution can seem powerful and unstoppable extracting data from every aspect of our lives and subjecting us to unprecedented surveillance and control but at ground level even the most advanced smart technologies are not as all powerful as either the tech companies or their critics would have us believe from gig worker activism to wellness tracking with sex toys and tiktokers manipulation of the algorithm this book shows how ordinary people are negotiating the datafication of society the book establishes a new theoretical framework for understanding everyday experiences of data and automation and offers guidance on the ethical responsibilities we share as we learn to live together with data driven machines everyday data cultures is essential reading for students and researchers in digital media and communication as well as for anyone interested in the role of data and ai in society

vivid and engaging silent racism persuasively demonstrates that silent racism racism by people who classify themselves as not racist is instrumental in the production of institutional racism trepagnier argues that heightened race awareness is more important in changing racial inequality than judging whether individuals are racist the collective voices and confessions of nonracist white women heard in this book help reveal that all individuals harbor some racist thoughts and feelings trepagnier uses vivid focus group interviews to argue that the oppositional categories of racist not racist are outdated the oppositional categories should be replaced in contemporary thought with a continuum model that more accurately portrays today s racial reality in the united states a shift to a continuum model can raise the race awareness of well meaning white people and improve race relations offering a fresh approach silent racism is an essential resource for teaching and thinking about racism in the twenty first century

the role of a leader has changed drastically since scholars began theorizing about the modern leader contemporary society has and is continuing to evolve existing leadership theories need to adapt to be relevant to the expectations of leaders now that is new leadership theories emerge in their place this book presents new ideas in leadership in the 21st century context as well as new models that explain how individuals enact good leadership this book serves as an opportunity to critique or defend current understandings of leadership and propose new evidence based and theory driven insights into leadership leadership is understood as more complex than an individual influencing another within the broad domains of

leadership there are leaders followers leadership processes followership processes teams dyads relationships and context each of these is critical in defining what it is to be a good leader in increasingly complex professional and personal environments this book will encourage authors to make compelling arguments not for how leadership is and has been but rather for how good leadership should be
