this book examines the entwined and simultaneous rise of graphic satire and cultures of paper money in late eighteenth and early nineteenth century Britain asking how Britons learned to value both graphic art and money the book makes surprising connections between two types of engraved images that grew in popularity and influence during this time graphic satire grew in visual risk taking while paper money became a more standard carrier of financial value courting controversy as a medium moral problem and factor in inflation through analysis of satirical prints as well as case studies of monetary satires beyond London this book demonstrates several key ways that cultures attach value to printed paper accepting it as social reality and institutional fact thus satirical banknotes were objects that broke down the distinction between paper money and graphic satire altogether

financial regulation can fail when it is needed the most the dynamics of asset price bubbles weaken financial regulation just as financial markets begin to overheat and the risk of crisis spikes at the same time the failure of financial regulations adds further fuel to a bubble this book examines the interaction of bubbles and financial regulation it explores the ways in which bubbles lead to the failure of financial regulation by outlining five dynamics which it collectively labels the regulatory instability hypothesis the book concludes by outlining approaches to make financial regulation more resilient to these dynamics that undermine law

this encyclopedia is an invaluable reference book for post Keynesian and heterodox economics it consists of 300 entries written by 180 different authors the volume includes entries on key concepts of interest to post Keynesians as well as descriptions of some of the seminal books in the post Keynesian tradition it will interest both students and scholars of heterodox economics as well as policy makers around the world looking for a better alternative to mainstream economic policies at national and international levels in the aftermath of the global financial crisis that burst in 2008 and the COVID-19 pandemic crisis

that began in 2020
