This rugged and easily maintained aircraft entered service in 1956 with the USAF Tactical Air Command. Ten years later, the Charlie 130 was providing essential logistical support in Vietnam. This period in Southeast Asia was the Hercules' finest hour: paratroops, airlift, and evacuation operations were completed around the clock, often at low level, usually under fire, and nearly always in bad weather. A generation later, this most dependable was serving with equal distinction in the Gulf War in the role of airlifter, radio countermeasures and psy-ops platform, gunship, and once again, blockbuster bomber. The Herky Bird or Fat Albert, as the C-130 is fondly known, has proved a key component in humanitarian relief operations as well in all parts of the world. Martin's technical and informative look at their creation and use is absolutely fascinating. An iconic aircraft gets Martin's VIP treatment in this wonderful book.
