kristian coates ulrichsen documents the startling rise of the arab gulf states as regional powers with international reach and provides a definitive account of how they have become embedded in the global system of power politics and policy making

cities have become increasingly important to global politics but have largely occupied a peripheral place in the academic study of international relations if this is a notable oversight for the discipline although one which may be explained by its traditional state centrism the subjugation of the city to the demands of the territorial state in the modern period and a lack of conceptual and analytical frameworks that can allow scholars to include the impact of cities within their work presenting case specific scholarship from leading experts in the field each contribution guides the reader through the changing nature of cities in the international system and their increasing prominence in global governance outcomes the book features case studies on the financial power of cities city action in the security domain collaboration of cities in coping with environmental problems transnational urban regions and mayors as international actors to illustrate if the relationship between the city and the state has changed in profound ways and how cities are empowered by structural changes in world politics the multidisciplinary and global focus in the power of cities in international relations sheds much needed light on the significance of the reemergence of cities from the long shadow of the nation state only by examining the mechanisms that have empowered cities in the last few decades can we understand their new functions and capabilities in global politics

this timely handbook offers a comprehensive critical overview of current research on knowledge and expertise in international politics that helps readers navigate the growing literature in the field and explore new research agendas the handbook is based on a shared understanding that knowledge and expertise matter in politics and that knowledge claims are a form of power warranting critical interrogation the chapters of knowledge and expertise in international politics take different theoretical starting points to explore the complex relationship between knowledge and politics and investigate whose knowledge matters politically why how and with what effects the contributions are organized into five perspectives highlighting the role of actors practices contexts structures and relations in the reproduction circulation and contestation of knowledge further chapters

explore central knowledge debates and cutting edge avenues for future research in the international relations discipline the handbook addresses themes such as the ethics and politics of knowing new technologies and ways to democratize decolonize and pluralize politically relevant knowledge bringing insights from different sub disciplines and policy fields together in one place knowledge and expertise in international politics consolidates the international politics of knowledge as a new transdisciplinary paradigm in the discipline providing numerous points of connection with debates around pressing global challenges with original theoretical expositions and granular thematic case studies it is an invaluable companion to all those interested in adopting knowledge and expertise approaches in research teaching and policy work chapters 1 16 27 45 and 67 of this work are available under the terms of a cc by nc nd 4 0 international open access licence these parts of the work are free to read on oxford academic and offered as a free pdf download from oup and selected open access locations

drawing together international experts on research methods in international relations ir this handbook answers the complex practical questions for those approaching a new research topic for the first time innovative in its approach it considers the art of ir research as well as the science offering diverse perspectives on current research methods and emerging developments in the field

no detailed description available for the concept of the state in international relations

no approach to world affairs in the 21st century can afford to ignore the impact that processes of globalisation are having on governments economies cultures and individuals an understanding of the theories that underpin international political economy and their practical applications is therefore crucial to the study of international relations politics development and economics in this comprehensive and accessible introduction to the field the authors consider traditional and alternative approaches to ipe elucidating key concepts assumptions and the intellectual and historical context in which they arose and developed making clear at all times their relevance to issues from trade finance and government to environment technology development and culture the style of this book encourages independent reflection and critical thinking each chapter relates theoretical analysis to contemporary issues by way of giving the student a better understanding of the theory and also demonstrating the value of

theory in the real world

this book brings together a group of leading scholars on international relations to develop and apply the concept of polarity on past and present international relations and discuss its applicability and usefulness in the future despite a comprehensive debate on a global power shift often discussed in terms of the decline of the united states the crisis in the liberal international order and the rise of china its main concept of power polarity remains undertheorized and understudied the great powers and their importance for dynamics and processes in the international system are central to current debates on international order but these debates too often suffer from a combination of politicized empirical analysis and reliance on old theoretical debates and conceptualizations typically originating in the cold war security environment in order to meet these challenges this book updates conceptualizes applies and critically debates the concepts of unipolarity bipolarity multipolarity and non polarity in order to understand the current world order

the original handbook of international relations was the first authoritative and comprehensive survey of the field of international relations in this eagerly awaited new edition the editors have once again drawn together a team of the world's leading scholars of international relations to provide a state of the art review and indispensable guide to the field ensuring its position as the pre eminent volume of its kind the second edition has been expanded to 33 chapters and fully revised with new chapters on the following contemporary topics normative theory in its critical theories and poststructuralism efforts at theoretical synthesis in its possibilities and limits international law and international relations transnational diffusion norms ideas and policies comparative regionalism nationalism and ethnicity geopolitics in the 21st century terrorism and international relations religion and international politics international migration a truly international undertaking this handbook reviews the many historical philosophical analytical and normative roots to the discipline and covers the key contemporary topics of research and debate today the handbook of international relations remains an essential benchmark publication for all advanced undergraduates graduate students and academics in politics and international relations

this text introduces the study of international economic and political structures with a social and collective learning approach

focusing on major international economic organizations it examines how managers in public and private sectors cope with international change in the 20th century

an anthology of contemporary and classic essays on issues in international relations designed to supplement an introductory text sections cover anarchy and its consequences the uses of force the international political economy and central issues in contemporary world politics new to this edition no index annotation copyright by book news inc portland or

contemporary international affairs are largely shaped by widely differing thematic issues and actors such as nation states international institutions ngos and multinational companies obtaining a deeper understanding of these multifaceted themes and actors is crucial for developing a genuine understanding of contemporary international affairs this book provides undergraduate and postgraduate students of global politics and international relations with the necessary knowledge of the forces that shape and dominate our global political economic and social cultural environment the book significantly enhances our understanding of the essentials of contemporary international affairs understanding global politics takes a pragmatic approach to international relations with each chapter being written by an expert in their respective field part i provides the historical background that has led to the current state of world affairs it also provides clear outlines of the major yet often complex theories of international relations part ii is dedicated to the main actors in global politics it discusses actors such as the most important nation states the un eu international organizations ngos and multinational companies part iii considers important contemporary themes and challenges in global politics including non state centered challenges chapters focus on international terrorism energy and climate change issues religious fundamentalism and demographic changes the comprehensive structure of this book makes it particularly viable to students who wish to pursue careers in international organizations diplomacy consultancy the think tank world and the media

now in its fifth edition this title has been fully revised and updated in the light of recent developments in world politics with new chapters on the changing nature of war human security and international ethics

there is every indication that the international system is undergoing a period of significant transformation the substantially

higher growth rates of the emerging market economies in comparison with those of the developed economies are changing the global distribution of power studies project that if economic trends are not reversed in the coming years china will surpass the us and become the world s largest economy india will emerge in japan s place as the third largest economy and brazil will outpace germany as the fifth largest this book underscores the complexity of forecasting international politics and proceeds cautiously to investigate the questions of change and continuity examining several actors with respect to multiple issues and across different levels of analysis taken as a whole this collection of essays offers a series of snapshots of different aspects and from varying angles of an international system in motion

critical perspectives on international political economy considers and revises the progress of critical thinking within ipe and engages with issues such as finance the practices of health and work the relevance of new social movements and the political economy of the internet in so doing it provides a possible map for the next stage of critical development in the study of international political economy

given that the world has moved well beyond the period of western colonialism and clearly into a durable period in which non western cultures have gained their political autonomy it is long past time that non western voices had a higher profile in debates about international relations not just as disciples of western schools of thought but as inventors of their own approaches western ir theory has had the advantage of being the first in the field and has developed many valuable insights but few would defend the position that it captures everything we need to know about world politics in this book acharya and buzan introduce non western ir traditions to a western ir audience and challenge the dominance of western theory an international team of experts reinforce existing criticisms that ir theory is western focused and therefore misrepresents and misunderstands much of world history by introducing the reader to non western traditions literature and histories relevant to how ir is conceptualised including case studies on chinese japanese south korean southeast asian indian and islamic ir this book redresses the imbalance and opens up a cross cultural comparative perspective on how and why thinking about ir has developed in the way it has as such it will be invaluable reading for both western and asian audiences interested in international relations theory
