the sixteen official documents constitutions decrees and declarations of the second vatican council are now available from liturgical press in the most popular and widely used inclusive language edition translated by irish dominican austin flannery october 21 2008 as the worldwide church continues to celebrate the fiftieth anniversary of the council 1962 65 there is a great need in college classrooms and parish faith formation groups as well as for individuals to again have access to these documents in contemporary english as flannery wrote in his introduction to the 1996 edition the translation of the texts of the vatican documents in the present volume differs from that in the previous publication in two respects it has been very considerably revised and in place corrected it is also to a very large extent in inclusive language i say to a very large extent because we have

used inclusive language in passages about men and women but not however in passages about god except where the use of the masculine pronoun was easily avoidable

fr eusèbe m ménard o f m was gifted with a visionary perspective regarding god s call to adults for ministry in the catholic church specifically priestly vocations in the mid 1940s ménard proposed an innovative idea for training men called to serve god through the priesthood college seminaries for belated vocations as he defined it a man with a belated vocation had not heard god s call in his early years or having heard it did not or could not act upon it at that time the events leading to the formation and development of holy apostles college seminary proved challenging and at times painful for those people who joined ménard in this enterprise still it appeared from the start that the hand of god was truly at work in the concept acquisition and development of holy apostles this study documents the founding and initial development of holy apostles and highlights several significant events from the first forty years of its service to the catholic church

krzysztof pawlina presents in his book a profile of a candidate for the priesthood who enters a seminary in poland the study was first conducted by survey method in 2000 and then repeated twenty years later in the former period the survey covered seminarians born and partly brought up during the communist rule in poland while in the latter the survey subjects were young people who were brought up in the conditions of a democracy and the free market economy the research captured the change that had taken place in regard to the social identity lifestyle and mentality of candidates for the priesthood the study covered aspects such as the geographical and social sources of priestly vocations the cultural background of priesthood candidates their religiosity their world of values their motivations their understanding of the priesthood and the church this change in question was explored in the context of social transformations especially the secularisation processes taking place in the last two decades of poland

religious life and priesthood reclaims the vision of vatican ii for contemporary priests religious and ecclesial ministers the book examines the historical context the key players and the implementation of vatican ii documents on the priesthood the training of priests and the religious life book jacket

in book title an international team of theologians offers a different reading of the documents from vatican ii the council was indeed putting forth a vision for the future of the church but that vision was grounded in two millennia of tradition taken together these essays demonstrate that vatican ii s documents are a development from an established antecedent in the roman catholic church back cover

rethinking cooperation with evil a virtue based approach applies thomistic virtue theory to today s most challenging questions of cooperation with evil for centuries moralists have struggled to determine the conditions necessary to justify moral cooperation

with evil the english jesuit henry davis even observed there is no more difficult question than this in the whole range of moral theology this important book addresses this challenge by applying the virtue based method of moral reasoning of st thomas aquinas to issues of cooperation with evil those who pastor souls report frequently receiving questions from attentive believers about whether a particular human action inadvertently contributes to some moral evil examples of potentially immoral cooperation with evil include whether one may shop at a particular franchise known for its support of abortion whether catholics may attend civil marriages outside the church or whether an organization may submit to government mandates that health insurance include payment for immoral practices although recent moralists have tackled specific topics related to cooperation with evil agreement on an overall common paradigm has not yet been reached rethinking cooperation with evil proposes a method for christian believers and others to approach these questions from the foundation of the thought of st thomas aquinas and the magisterial teaching of the catholic church this text provides both an overall method for how to understand the issue of cooperation as well as practical counsel for specific cases rethinking cooperation with evil advances the theological conversation on this topic from both speculative and practical vantage points to facilitate his argument connors utilizes historical analyses that contrast aquinas s method of moral reasoning with that of the casuist treatment of cooperation consequently the book includes numerous case studies that will be of interest both to moral theologians and readers new to the topic

this unique collection presents a comprehensive evaluation of each document of the second vatican council written by contemporary liturgical scholars and theologians each article provides an overview of key theological themes historical and pastoral considerations and how the document relates to our understanding and experience of the liturgy as source and summit

when msgr eugene kevane s seminal work the lord of history was originally published in 1980 it responded to a call by the second vatican council to promote a more effective coordination of philosophy and theology so that they supplement one another in revealing the mystery of christ which affects the whole course of human history optatum totius 14 lamenting that in modernity christ is no longer the center of the universal history of mankind let alone the center of one s personal history kevane believed it was critical for catechists to reclaim christ as the lord over every aspect of humanity s collective and individual experience in this new edition of the lord of history kevane s groundbreaking work introduces today s generation to the bedrock of christian philosophy and its relationship to religious instruction and beyond

in his new book fr thomas mcgovern examines fundamental aspects of the priestly vocation from a theological spiritual and pastoral standpoint and offers a convincing restatement of the identity of the priest from the perspective of contemporary theology as well as drawing on the historical tradition he focuses particularly on the writings of john paul ii about the priesthood and the rich insights that he has contributed over the past twenty years towards a clearer definition of the priestly vocation
