the brilliant and hugely influential book by the winner of the 2017 royal society insight
investment science books prize fun droll yet deeply serious new scientist a brilliant
feminist critic of the neurosciences read her enjoy and learn hilary rose thes a witty and
meticulously researched exposé of the sloppy studies that pass for scientific evidence in
so many of today's bestselling books on sex differences carol tavris tils gender
inequalities are increasingly defended by citing hard wired differences between the male
and female brain that's why we're told there are so few women in science so few men
in the laundry room different brains are just suited to different things with sparkling wit

and humour cordelia fine attacks this neurosexism revealing the mind's remarkable plasticity the substantial influence of culture on identity and the malleability of what we consider to be hardwired difference this modern classic shows the surprising extent to which boys and girls men and women are made not born

fine's sharp tongue is tempered with humor read this book and see how complex and fascinating the whole issue is the new york times it's the twenty first century and although we tried to rear unisex children boys who play with dolls and girls who like trucks we failed even though the glass ceiling is cracked most women stay comfortably beneath it and everywhere we hear about vitally important hardwired differences between male and female brains the neuroscience that we read about in magazines newspaper articles books and sometimes even scientific journals increasingly tells a tale of two brains and the result is more often than not a validation of the status quo women it seems are just too intuitive for math men too focused for housework drawing on the latest research in neuroscience and psychology cordelia fine debunks the myth of hardwired differences between men's and women's brains unraveling the evidence behind such claims as men's brains aren't wired for empathy and women's brains aren't made to fix cars she then goes one step further offering a very different explanation of the dissimilarities between men's and women's behavior instead of a male brain and a female brain fine gives us a glimpse of plastic mutable minds that are continuously influenced by cultural assumptions about gender passionately argued and unfailingly astute *delusions of gender* provides us with a much needed corrective to the belief that men's and women's brains are intrinsically different a belief that as fine shows with insight and humor all too often works to the detriment of ourselves and our society

please note this is a companion version not the original book sample book insights 1 the more i was treated as a woman the more woman i became i adapted willy nilly if i was assumed to be incompetent at reversing cars or opening bottles oddly incompetent i found myself becoming 2 the implicit mind is the process by which we automatically associate things with people it is not reflective and it does not require awareness or intention it simply takes in associations from the environment these associations may be reactionary even when our consciously held beliefs are modern and progressive 3 when gender is salient in the environment or we categorize someone as male or female our unconscious attitudes toward those categories are automatically activated these associations can affect our perception of others and our own selves 4 dynamic chameleon that changes from moment to moment in response to its social environment the part of your self concept that is active depends on the context in some

situations your active self will be personal and idiosyncratic while in other situations your social identity will take over

comprehensive in its scope this is a guide to all aspects of management of this complex growing patient group including surgery legal issues psychological approaches and various treatments flow charts aid decision making and diagrams and colour photographs are used to illustrate surgical techniques
