recent studies on competition law and digital markets reveal that accumulating personal information through data collection and acquisition methods benefits consumers considerably free of charge fast and personalised services and products are offered to consumers online collected data is now an indispensable part of online businesses to the point that a new economy a data driven sector has emerged many markets such as the social network search engine online advertising and e commerce are regarded as data driven markets in which the utilisation of big data is a requisite for the success of operations however the accumulation and use of data brings competition law concerns as they contribute to market power in the online world resulting in a few technology giants gaining unprecedented market power due to the big data accumulation indirect network effects and the creation of online ecosystems as technology giants have billions of consumers worldwide data driven markets

are truly global in these data driven markets technology giants abuse their dominant positions but existing competition law tools seem ineffective in addressing market power and assessing abusive behaviour related to big data this book argues that a novel approach to the data driven sector must be developed through the application of competition law rules to address this it argues that current and potential conflicts can be mitigated by extending the competition law assessment beyond the current competition law tools to offer a modernised and unified approach to the big data related competition issues promoting new legal tests for addressing the market power of technology giants and assessing abusive behaviour in data driven markets this book advocates for cooperation between competition and data protection authorities it will be of interest to students academics and practitioners with an interest in competition law and data protection

this volume lists 20 000 european companies providing essential business services including coverage of companies in the emerging eastern european market giving such information as company names addresses and contact numbers details of annual sales services offered scope of operations and principal officers it is intended that the range of services covered could assist other internationally minded companies to expand their operations and market goods in europe business researchers could find it useful in seeking out new market niches
