at the centre of our ethical thought stands the human being roger teichmann examines the ways in which facts about human nature determine the shape of ethical concepts such as rationality virtue and happiness he argues that only by attending to the social and empirical character of language use can we address a number of problems in ethics

between the opposing claims of reason and religious subjectivity may be a middle ground william j wainwright argues his book is a philosophical reflection on the role of emotion in guiding reason there is evidence he contends that reason functions properly only when informed by a rightly disposed heart the idea of passional reason so rarely discussed today once dominated religious reflection and wainwright pursues it through the writings of three of its past proponents jonathan edwards john henry newman and william james he focuses on edwards whose work typifies the christian perspective on religious reasoning and the heart then in his discussion of newman and james wainwright shows how the emotions participate in non religious reasoning finally he takes up the challenges most often posed to notions of passional reason that such views justify irrationality and wishful thinking that they can t be defended without circularity and that they lead to relativism his response to these charges culminates in an eloquent and persuasive defense of the claim that reason functions best when influenced by the appropriate emotions feelings and intuitions
