may 28 2021 i have recently come across the code gt in r it is a vertical line character pipe followed by a greater than symbol here is an example mtcars gt head what is the gt code

nov 25 2014 i have seen the use of gt percent greater than percent function in some packages like dplyr and rvest what does it mean is it a way to write closure blocks in r

a carriage return r makes the cursor jump to the first column begin of the line while the newline n jumps to the next line and might also to the beginning of that line

the infix operator is not part of base r but is in fact defined by the package magrittr cran and is heavily used by dplyr cran it works like a pipe hence the reference to magritte s famous

for boolean values there s no difference between bitwise and logical operations but for arbitrary integers the result differs for instance 1 2 3 in most programming languages however this is

8 i created a question what is the calculation behind the operator in r which was marked as a duplicate of this question the operator is used to multiply two matrices
