the major contemporary work on urban design splendidly presented filled with thoughtful and brilliant intuitive insights the new republic in a brilliant synthesis of words and pictures edmund n bacon relates historical examples to modern principles of urban planning he vividly demonstrates how the work of great architects and planners of the past can influence subsequent development and be continued by later generations by illuminating the historical background of urban design bacon also shows us the fundamental forces and considerations that determine the form of a great city perhaps the most significant of these are simultaneous movement systems the paths of pedestrian and vehicular traffic public and private transportation that serve as the dominant organizing force and bacon looks at movement systems in cities such as london rome and new york he also stresses the importance of designing open space as well as architectural mass and discusses the impact of space color and perspective on the city dweller that the centers of cities should and can be pleasant places in which to live work and relax is illustrated by such examples as rotterdam and stockholm

john guinther s direction of cities expounds the nature of cities how they grow whom they are intended to serve which forces harm them and which help them develop their true potential written in collaboration with renowned architect and urban planner edmund n bacon direction of cities complements bacon s own classic design of cities tracing the growth of america s cities from their earliest days to the present guinther relates historical examples to modern principles of urban planning illustrating bacon s holistic philosophy which demands an overarching direction to counter the city s natural drift toward chaos only by this holistic approach can we begin to reverse such problems as the collapse of infrastructure and create a coherent urban vision that meets its citizens material and spiritual needs broad in context lively in its characterization of individual city patterns and above all optimistically practical direction of cities is indispensable reading for everyone interested in understanding the underlying textures of cities and the forces within them that can be developed for their long term advancement

the second edition of the urban design reader draws together the very best of classic and contemporary writings to illuminate and expand the theory and practice of urban design nearly 50 generous selections include seminal contributions from howard le corbusier lynch and jacobs to more recent writings by waldheim koolhaas and sorokin following the widespread success of the first edition of the urban design reader this updated edition continues to provide the most important historical material of the urban design field but also introduces new topics and selections that address the myriad challenges facing designers today the six part structure of the second edition guides the reader through the history theory and practice of urban design the reader is initially introduced to those classic writings that provide the historical precedents for city making into the twentieth century part two introduces the voices and ideas that were instrumental in establishing the foundations of the urban design field from the late 1950s up to the mid 1990s these authors present a critical reading of the design professions and offer an alternative urban design agenda focused on vital and lively places the authors in part three provide a range of urban design rationales and strategies for reinforcing local physical identity and the creation of memorable places these selections are largely describing the outcomes of mid century urban design and

voicing concerns over the placeless quality of contemporary urbanism the fourth part of the reader explores key issues in urban design and development ideas about sprawl density community health public space and everyday life are the primary focus here several new selections in this part of the book also highlight important international development trends in the middle east and china part five presents environmental challenges faced by the built environment professions today including recent material on landscape urbanism sustainability and urban resiliency the final part examines professional practice and current debates in the field where urban designers work what they do their roles their fields of knowledge and their educational development the section concludes with several position pieces and debates on the future of urban design practice this book provides an essential resource for students and practitioners of urban design drawing together important but widely dispersed writings part and section introductions are provided to assist readers in understanding the context of the material summary messages impacts of the writing and how they fit into the larger picture of the urban design field

today the practice of urban design has forged a distinctive identity with applications at many different scales ranging from the block or street scale to the scale of metropolitan and regional landscapes urban design interfaces many aspects of contemporary public policy multiculturalism healthy cities environmental justice economic development climate change energy conservations protection of natural environments sustainable development community liveability and the like the field now comprises a core body of knowledge that enfolds a rich history of ideas paradigms principles tools research and applications enriched by electric influences from the humanities and social and natural sciences companion to urban design includes more than fifty original contributions from internationally recognized authorities in the field these contributions address the following questions what are the important ideas that have shaped the field and the current practice of urban design what are the major methods and processes that have influenced the practice of urban design at various scales what are the current innovations relevant to the pedagogy of urban design what are the lingering debates conflicts and contradictions in the theory and practice of urban design how could urban design respond to the contemporary challenges of climate change sustainability active living initiatives globalization and the like what are the significant disciplinary influences on the theory research and practice of urban design in recent times there has never before been a more authoritative and comprehensive companion that includes core foundational and pioneering ideas and concepts of urban design this book serves as an invaluable guide for undergraduate and postgraduate students future professionals and practitioners interested in architecture landscape architecture and urban planning but also in urban studies urban affairs geography and related fields

flourishing from 1951 to 1965 the philadelphia school was an architectural golden age that saw a unique convergence of city practice and education all in renewal and it was a bringing together of architecture city and regional planning and landscape architecture education under the leadership of dean g holmes perkins during that time at the architecture school at the university of pennsylvania known as the graduate school of fine arts or gsfa louis kahn and robert venturi were transforming modern architecture romaldo giurgola was applying continental philosophy to architectural theory robert le ricolais was building experimental

structures ian mcharg was questioning western civilization and advancing urban and regional ecology herbert gans was moving into levittown and denise scott brown was forging a syncretism of european and american planning theory and discovering popular culture and in the city edmund bacon was directing the most active city planning commission in the country this book describes the history of the school the transformation of the city of philadelphia and the philosophy of the philadelphia school in the context of other movements of the time and looks at what the philadelphia school has to offer to architecture today and in the future all from the point of view of a student who was there

a 28 year old astronomer named molly ponders an uncertain future after suddenly losing her job and finding her confidence shaken for the first time in her life meanwhile molly s husband friends family neighbors and one unusually perceptive halloween trick or treater all weigh in with their opinions on just how she should handle the precarious situation jason buchanan rovi

a thoughtfully curated collection in a stunning package that recognizes and celebrates the birthdays of famous infamous and often overlooked designers and architects the gift book for design and architect professionals and students they didn t know they needed but will no longer be able to live without drawn from architect james biber s epic instagram project in which he posted a birthday bio of a famous or less famous designer or architect every day for a mid pandemic year the architect and designer birthday book is filled with personal opinionated and humorous observations on fascinating design and architect figures past and present the minibiographies and birthday profiles in the book cover a range of international architects and designers as well as artists including architects from the aaltos aino and alvar to zumthor rivals bernini and borromini photographers lee miller louise dahl wolfe vivian maier dody weston thompson margaret morton and judith turner midcentury modernists marcel breuer walter gropius and florence knoll charlotte perriand lilly reich anne tyng and denise scott brown more anecdotal histories than authorized biographies these daily profiles are not only fun to read but provide spot on commentary for anyone interested in how designers and architects relate to each other as well as their place in history it is the intersection of biber s life and the history of architecture and design

the city is the best funniest saddest and most thought provoking compilation ever assembled on the urban scene james a clapp has arranged more than three thousand quotations epigrams epithets verses proverbs scriptural references witticisms lyrics literary references and historical observations on urban life from antiquity until the present these quotes are drawn from the written and spoken words of more than one thousand writers throughout history this volume with contributions from speakers poets song writers politicians philosophers scientists religious leaders historians social scientists humorists architects journalists and travelers from and to many lands is designed to be used by writers speechmakers students and scholars on cities and urban life clapp s text is striking for its sharp contrasts of urban and rural life and the urbanization process in different historical times and geographical areas this second edition includes four hundred new entries updated birth dates and occupations of quoted authors and an expanded and updated introduction and preface clapp also added new introduction pages for each section containing pictures and unique quotations the indexes have also been expanded to include more subjects and cities the scope of this book is international

including entries on most major and many minor cities of the world it is noteworthy for its pleasures as well as its insights
