this revised and updated fifth edition of the highly acclaimed gold standard textbook continues to provide a foundational review of health behavior change theories research methodologies and intervention strategies across a range of populations age groups and health conditions it examines numerous complex and often co occurring factors that can both positively and negatively influence people s ability to change behaviors to enhance their health including intrapersonal interpersonal sociocultural environmental systems and policy factors in the context of leading theoretical frameworks beyond understanding predictors and barriers to achieving meaningful health behavior change the handbook provides an updated review of the evidence base for novel and well supported behavioral interventions and offers recommendations for future research new content includes chapters on sun protection interventions with the family system and the role of technology in behavior change throughout the textbook updated reviews emphasize mobile health technologies and electronic health data capture and transmission and a focus on implementation science and the fifth edition like the previous edition provides learning objectives to facilitate use by course instructors in health psychology behavioral medicine and public health the handbook of health behavior change fifth edition is a

valuable resource for students at the graduate and advanced undergraduate level in the fields of public or population health medicine behavioral science health communications medical sociology and anthropology preventive medicine and health psychology it also is a great reference for clinical investigators behavioral and social scientists and healthcare practitioners who grapple with the challenges of supporting individuals families and systems when trying to make impactful health behavior change new to the fifth edition revised and updated to encompass the most current research and empirical evidence in health behavior change includes new chapters on sun protection interventions with the family system and the role of technology in behavior change increased focus on innovations in technology in relation to health behavior change research and interventions key features the most comprehensive review of behavior change interventions provides practical empirically based information and tools for behavior change focuses on robust behavior theories multiple contexts of health behaviors and the role of technology in health behavior change applicable to a wide variety of courses including public health behavior change preventive medicine and health psychology organized to facilitate curriculum development and includes tools to assist course instructors including learning objectives for each chapter

this thorough revision of the highly successful first edition of life span development offers the reader a wide ranging and thought provoking account of human development throughout the lifespan the lifespan approach emphasises that development does not stop when we cease to be adolescents but goes on throughout adulthood and into old age in initial chapters leonie sugarman outlines the issues surrounding the notion of development and how it can be studied including reviews of the work of key theorists erikson levinson and gould she goes on to consider the different ways in which the life course can be construed as a series of age related stages as a cumulative sequence as a series of developmental tasks as a series of key life events and transitions or as a narrative construction which creates a sense of dynamic continuity a final chapter looks

at how people cope the resources that are available and the theoretical and practical issues regarding interventions to assist them in the process new to this edition is increased coverage of the topical issue of successful ageing and a new chapter on the increasingly popular narrative approach to lifespan development this edition is also more student friendly with exercises in self reflection that encourage the reader to look at the development of their own lives or those of their current or future clients boxed material highlighting major theories and clarifying concepts is also included this book will be invaluable for students of developmental and occupational psychology and professionals in the fields of health management education and social work

this book argues that issues of sexual diversity are inextricably interwoven into the basic concerns of pre service teacher education how do we make our students aware of assumptions regarding masculinity femininity and sexuality that arise from what is

presented represented or omitted from curricula and classroom practice what do we say about homophobia and heterosexism as we anticipate the administrative hierarchies school cultures parent and community politics they will encounter as teachers what special challenges might face a teacher straight or gay who discusses sexual orientation in a high school classroom or responds to a homophobic remark in the hallway or the cafeteria how should we prepare a teacher for a parent conference with two moms or two dads the essays in this volume range from an analysis of gay stereotypes in teacher education textbooks to a discussion of queer multiculturalism to personal accounts by lesbian and gay teacher educators and heterosexual allies who are challenging homophobia and heterosexism in their own classrooms and programs all agree that education for sexual diversity is as important as education about all other forms of difference and that future teachers need to know how to create safe spaces for lesbian and gay students along with the children of gay families who are increasingly a part of the classroom landscape

the life span human development for helping professionals 5th edition provides an in depth look at the science of human development highlighting theories and research that have useful applications for individuals working in fields such as education counseling and social work the main purpose of this book is to provide the reader with information that can be translated into professional best practice applications throughout the text reflects the contemporary view that life span development is a process deeply embedded within and inseparable from the context of family social network and culture because the book is designed for graduate students most topics especially those that have special relevance to helping professionals are covered in greater depth than in a typical life span text the expanded coverage of research in these areas will enhance readers understanding of the scientific basis for application to practice also available with mylab education by combining trusted author content with digital tools and a flexible platform mylab personalizes the learning experience and improves results for each student mylab
