adolescence 8th edition by Laurence Steinberg has been thoroughly updated to reflect current findings in the field of adolescent development. In this edition, the author continues to utilize the effective combination of a friendly writing style, thorough research, and a contextual approach that emphasizes adolescence in contemporary society. The text's careful organization ensures maximum teaching flexibility that allows the chapters to work together or be covered in sequence or stand alone. Ethnicity and minority issues are thoroughly discussed in a way that enables students to see how the adolescent experience is shaped by class and culture. The strong pedagogical framework helps students organize and integrate material. Adolescence 8th edition is based on solid research and theory yet it has a distinctively real-world feel that emphasizes the reality of being an adolescent in today's society.

This book provides an in-depth insight into what is currently known and relatively unknown about youths' online peer engagement. It delivers state-of-the-art current reviews of the literature in the field with a strong coverage of methodological issues in studying online friendships and an emphasis on moving towards a new, less dichotomous view of online peer interaction in adolescence with a focus on what spending time with online exclusive peers entails in terms of both potential positive as well as negative consequences for friendship quality, intimacy, and well-being. This book offers a more nuanced commentary on youths' online peer engagement, including coverage of the evolution of online friendships, cyberbullying, cyberdating, sexting, online abuse, smartphones, social networks, as well as their impact on adolescent social interaction online. Van Zalk and Monks consider implications for future research directions and practical applications. Online peer engagement in adolescence is important reading for undergraduate and master students studying social and developmental psychology, education, relationships, and health, as well as advanced researchers and academics working in these fields.
