making poor nations rich illustrates the importance of institutions that support economic freedom and private property rights for promoting the form of productive entrepreneurship that leads to sustained increases in countries standard of living

considering the historical background of space militarization and providing an overview of the united states efforts to militarily dominate space since the dawn of the space age this book argues that america must either ensure that space related weapons are verifiably banned for all nations through an international treaty or definitively choose a policy of unilateral space dominance that may lead to an arms race in space and possibly to another cold war through a careful discussion of the history of space programs their impact on past policies and events the tactical and strategic influence of space weapons on the engagement of war and the potential pitfalls of a dominance strategy this book concludes that unilateral military dominance of space by the united states would be a supreme mistake and that it would make americans less secure

those who would give up essential liberty to purchase a little temporary safety deserve neither liberty nor safety wrote benjamin franklin attempting to gain security by sacrificing liberty is also a foolish action because it only increases the potential for harm in neither liberty nor safety fear ideology and the growth of government economist and historian robert higgs illustrates the false trade off between freedom and security by showing how the u s government s economic and military interventions reduced the civil and economic liberties prosperity and genuine security of americans in the 20th century extending the theme of higgs s earlier books neither liberty nor safety stresses the role of misguided ideas in the expansion of government power at the expense of individual liberty higgs illuminates not only many underappreciated aspects of the great depression the two

world wars and the postwar era but also the government s manipulation of public opinion and the role that ideologies play in influencing political outcomes and economic performance

an important contribution to the literature of economic development this book presents case studies of productive entrepreneurship in contemporary africa and latin america it looks at the growth of kenya s chain stores and one person kiosks the rise of barter clubs in argentina and nigeria s clothing design industry to illustrate economists insights about entrepreneurship and the role that government regulations often play in impeding economic development half the people in the world live on two dollars or less per day and roughly 600 million live on no more than one dollar per day with thousands of international relief organizations strategic government programs and billions of dollars in foreign aid why do so many underdeveloped countries remain unable to grow their economies beyond mere survival it is this issue that internationally acclaimed political analyst alvaro vargas llosa and a select group of economists examine in a series of case studies from around the world these studies reveal that entrepreneurial energy can be a persistent catalyst for change but unfortunately in societies dominated by political corruption and unnecessary regulation men and women seeking to innovate must hurdle a series of challenges wealth transfer favoritism excessive taxation and lack of institutional security all conspire against progress our contributors examine real world examples of entrepreneurship and argue that instead of redistributing existing wealth developing countries should start working to create it
