how can recent developments in post structuralist post marxist and psychoanalytical theory actually inform ongoing empirical research what are the appropriate methods and research strategies for conducting research in discourse theory and analysis

how can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics this pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences

the legitimacy of the european union is a much studied and highly contested subject unlike other works this book does not engage in another review of the shifts of public opinion and perception regarding the eu instead it offers a different and innovative perspective by focusing on constructions of legitimacy in the european commission starting from the premise that legitimacy is discursively constructed the book engages in a fine grained analysis of legitimacy discourses in the european commission since the early 1970s embedded in a poststructuralist theoretical framework hegemonies of legitimation also sheds light on the conditions that made radical shifts of legitimacy discourses possible and illustrates how these discursive shifts paved the way for different types of legitimation policies as such the book maps and reconstructs the historically variable discursive landscape of competing articulations of what legitimacy signifies in the case of the ec eu and provides us with a detailed picture of the history of the commission s struggle for legitimacy

this book examines the failure of islamic politics in becoming a hegemonic force in indonesia and the far reaching consequences for current practices of democracy and of islam itself in contrast to the thesis of compatibility between islam and democracy following the dominant discourse of the global war on terror gwot and neoliberal democracy this study situates islamic politics in broader social settings by examining its nature and trajectories throughout indonesia s modern political history the book thus investigates how the practices of islamic politics or islamism have shaped and been transformed through political contestations and the formation of coalitions of multiple forces in constructing indonesia s socio political landscape using the concept of hegemony from poststructuralist discourse theory the analytical framework applied in this book goes beyond liberal epistemologies of islamism that prescribe the separation of religion from politics and treat islamism as an object of intervention instead the book is premised on the contention that indonesia is a political construction in which islam has become one of the major discourses that have defined and transformed indonesia s nation state throughout history in this view it is argued that the nature and dynamics of islamism are not driven primarily by different interpretations of religious doctrines cultural norms or by the imperative of institutions rather the struggles of different islamist projects in their quest for hegemony are contingent on the outcomes of socio political changes and contestations that involve multiple political forces both within and beyond the islamists in specific historical conjunctures

the creation of afghanistan in 1880 following the second anglo afghan war gave an empowering voice to the pashtun people the largest ethnic group in a diverse country in order to distil the narrative of the state s formation and early years a pashtun centric version of history dominated afghan history and the political process from 1880 to the 1970s alternative discourses made no appearance in the fledgling state which lacked the scholarly institutions and any sense of recognition for history thus providing no alternatives to the narratives produced by the british whose quasi colonial influence in the region was supreme since 1970 the ongoing crises in afghanistan have opened the space for non pashtuns including tajiks hazaras and uzbeks to form new definitions of identity challenge the official discourse and call for the re writing of the long established narrative at the same time the pashtun camp through their privileged position in the political settlements of 2001 have attempted to confront the desire for change in historical perceptions by re emphasising the pashtun domination of afghan history this crisis of hegemony has led to a deep antagonism between the pashtun and non pashtun perspectives of afghan history and threatens the stability of political process in the country

how could an undemocratic regime manage to stabilise russia what is putin s success formula what are the symbolic and discursive underpinnings of russia s new stability many outside observers of russia regarded the authoritarian tendencies during the putin presidency as a retreat from or even the end of democratization rather than attempting to explain why russia did not follow the trajectory of democratic transformation this book aims to attain an understanding of the stabilization process during putin s tenure as president proceeding from the assumption that the stability created under putin is multi layered the authors attempt to uncover the underpinnings of the new equilibrium inquiring especially about the changes and fixations that occurred in the discourses on political and national identity in doing so the authors analyse the trajectories of the past years from the traditional perspective of transitology as well as through the lens of post structuralist discourse theory the two approaches are seen as complementary with the latter focusing less on the end point of transition than on the nature of the mechanisms that stabilize the current regime the book focuses on how nationalism became an increasingly important tool in political discourse and how it affected political identity sovereign democracy is seen by many contributors as the most explicit manifestation of a newfound post soviet identity drawing on nationalist ideas while simultaneously appeasing most sectors of the russian political spectrum
