franklin d roosevelt once described the south as the nation s number one economic problem these twelve original interdisciplinary essays on southern indigence between the world wars share a conviction that poverty is not just a dilemma of the marketplace but also a cultural and political construction although previous studies have examined the web of coercive social relations in which sharecroppers wage laborers and other poor southerners were held in place this volume opens up a new perspective these essays show that professed forces of change and modernization in the south writers photographers activists social scientists and policymakers often subtly upheld the structures by which southern labor was being exploited planters politicians and others who enforced the southern economic and social status quo not only relied on bigotry but also manipulated deeply held american beliefs about sturdy yeoman nobility and the sanctity of farm and family conversely any threats to the system were tarred with the imagery of big cities northerners and organized labor the essays expose vestiges of these beliefs in sources as varied as photographs from the farm security administration statistics for incarceration and child labor and the writings of grace lumpkin ellen glasgow and erskine caldwell this volume shows that those who work to eradicate poverty and even victims of poverty themselves can hesitate to cross the line of race gender memory or tradition in pursuit of their goal

this book examines a central group of music theory treatises that have formed the background to the study of renaissance music taking theorists music examples as a point

of departure it explores fundamental questions about how music was read and by whom situating the reading in specific cultural contexts numerous broader issues are addressed in the process the relationship of theory and praxis access to and use of printed musical sources stated and unstated agendas of theorists orality and literacy as it was represented via music print culture the evaluation of anonymous repertories and the analysis of repertories delineated by boundaries other than the usual ones of composer and genre in particular this study illuminates the ways in which renaissance theorists choices have shaped later interpretation of earlier practice and reflexively the ways in which modern theory has been mapped on to that practice

drawing on a half century of scholarship of polish studies of copernicus and cracow university and of copernicus s sources this book offers a comprehensive re evaluation of copernicus s achievement and explains his commitment to the uniform circular motions of celestial bodies and his views about hypotheses

first edition sold over 2500 copies in the americas new edition contains three new chapters and two new appendices
