discusses the lds church s doctrine and covenants specifically the historical circumstances out of which the revelations and other subject matter contained therein arose with a summary of the general contents and when necessary discusses any difficulties that arise in the text

this book reflects and comprises the latest in research on the history and theology of reformed orthodoxy 1550 1750 and is at the same time a work in progress which makes this volume in the companion series unique the reason for this is not only the quality of the authors and the chapters they have produced but also the fact that the study of reformed orthodoxy has in recent years taken an entirely new approach and has received renewed and spirited attention whose results have so far not been brought together in one book the renewed interest and reappraisal of this period in intellectual history is reflected in this work in which an international team of renowned scholars give an oversight of this fascinating period in intellectual history contributors include willem van asselt aza goudriaan irena backus mark beach christian moser anton vos tobias sarx andreas mühling carl trueman graeme murdock joel beeke sebastian rehnman scott clark john fesko luca baschera maarten wisse hugo meijer pieter rouwendal and john witte

in the first edition of the mormon mirage latayne c scott shared her remarkable journey out of mormonism as she uncovered shocking inaccuracies inconsistencies and contradictions in the faith she had loved and lived thirty years later mormonism and mormon scholarship have evolved with the times in this third revised and updated edition of her well known book scott keeps pace with changes and advances in mormonism and reveals formidable new challenges to its claims and teachings the mormon mirage provides fascinating carefully documented insights into dna research s withering implications for the book of mormon the impact of new revelations on latter day saint lds race relations new findings about mormon history increasing publicity about lds splinter groups particularly polygamous ones recent disavowals of long held doctrines by church leadership the rise of mormon apologetics on the internet more than a riveting insider s scrutiny of the mormon faith this book is a testimony to the trustworthiness of scripture and the grace of jesus christ

this study presents the religious factor in the development of a separatistic group identity among the forebears of the afrikaners during the dutch colonial period of south african history dutch reformed covenant theology and baptism practice rooted in the thousand generation covenant theory helped to shape this self understanding it traces the basic developments of covenant theology in the netherlands during the period and

demonstrates how these concepts were conveyed to colonial south africa the dominant strain of covenantal thought treated the entire community as redeemed and called to be separate it was presented through a variety of means through which virtually every colonist was exposed this study offers a balanced historical approach to the role of theological concepts in the colonial roots of afrikaner group identity it answers traditional scholarship in the field which either directly identify the concepts behind the development of apartheid with calvinist theology or more recently deny that the reformed faith had any role in the development of apartheid ideology until the twentieth century

astronomy papyrus and covenant is the third volume in the farms series and includes papers from a recent conference on the subject rather than focus on biblical interpretations of abraham each chapter instead explores a lesser known aspect of abrahamic studies his startling visions of the heavens comparisons between the book of abraham and other ancient texts such as the dead sea scrolls and an investigation into shifting interpretations of abraham throughout nineteenth century america the compilation is an excellent introduction to recent scholarship on the subject and will prove to be fascinating reading

excerpt from a compendium of the faith and doctrines of the church of jesus christ of latter day saints compiled from the bible and also from the book of mormon doctrine and covenants and other publications of the church with an appendix i also trust that it will be found of great value to those who may wish to search after the rich stores of knowledge which our various publications contain the study of which has no doubt been often neglected on account of the great labour which has heretofore been necessary to find the most important revelations discourses articles c on the leading doctrines of the church but few will probably fully appreciate the difficulties attendant on the first compilation of a work of this kind to break new ground to bring the most important passages from several different publications to bear on nearly fifty different subjects has required much time and patient research that it might be much improved i am well aware but if it prove an efficient aid to the elders in their labours to spread the truth and an assistant to those who love to search after the principles of salvation and supply in some measure the want that has been felt for a work of the kind the general objects for which it was commenced will have been attained i have only endeavoured to assist others in their efforts to obtain the implements with which to combat the powers of darkness and it will require great care on their part to use them at all times with wisdom about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

revelation is so central to mormonism that one might presume that the study of original texts is an exhausted field the remarkable truth is that little has yet been done in this area an analysis of the earliest manuscripts and first printed versions often in newspapers helps establish the original setting and often the intention of the revelations many of which have been greatly changed by later textual modifications by knowing more of the history of the early church marquardt hopes to reveal new and important vistas concerning both early mormonism and the concept of revelation itself

mclellin wrote further i heard joseph smith tell his experience of his ordination and the organization of the church probably more than twenty times to persons who near the rise of the church wished to know and hear about it i never heard of moroni john the baptist or peter james and john mclellin believed that angels had visited joseph smith but not that human beings could become angels a teaching not yet current in the 1830s or that priesthood authority could be conveyed in that way
