developed in conjunction with the Australian College of Critical Care Nurses (ACCCN) the text has been written and edited by the most senior and experienced critical care nursing clinicians and academics across the region. ACCCN's critical care nursing is a resource that will foster the development of skilled and confident critical care nurses. This comprehensive text provides detailed coverage of a number of specialty areas within critical care nursing including intensive care, emergency nursing, cardiac nursing, neuroscience nursing, and acute care. It will encourage students to be reflective practitioners, ethical decision makers, and providers of evidence-based care. Written by expert clinicians, academics, and educators, pedagogically rich chapters with learning objectives, key terms, case studies, practice tips, article abstracts, learning activities, research vignettes, heavily illustrated and referenced, reflects current clinical practice, policies, procedures, and guidelines. The text has a patient-centred approach and will provide students with a sound knowledge base and critical thinking skills. Image bank of all illustrations from the text will be available to lecturers for teaching.

Revised format mirrors a practicing nurse's approach to patient care, making it easier to find information. Newly formatted care plans incorporate diagnoses, interventions, and desired outcomes in a consistent logical organization. Patient safety alerts and high alerts call attention to issues important to a patient's safety. Unique diagnostic tests tables highlight the definition, purpose, and abnormal findings for each test. Unique collaborative management tables concisely summarize key points while incorporating nationally recognized guidelines. Colored tabs mark the location of each body system, making topics easier to find. Smaller trim size increases portability for use in the unit or bedside while enhancing readability.

This title is appropriate for all associate and baccalaureate level courses in critical care and advanced adult or medical surgical nursing, as well as for hospital orientation programs for beginning critical care nurses. An introduction to critical care that helps nurses deliver safe, effective care that optimizes patients' outcomes. Understanding the essentials of critical care nursing provides novice critical care nurses with a firm foundation so that they are able to understand the complexities of care, deliver safe, effective care, and begin their transition to expert nurses. It identifies concepts and techniques that are unique to critical care nursing and focuses on the essentials of providing care to patients with disorders that are commonly seen in critical care settings. Evidence-based practices, safety initiatives, commonly used medications, and leading technologies for providing better care are highlighted throughout the book. The 3rd edition includes current recommendations for practice, as well as new NCLEX-style questions and analytical 'why/why not' features that spark critical thinking and test readers' understanding by concentrating on the problems that the new critical care nurse is most likely to encounter. The text establishes the groundwork students need to become increasingly effective nurses capable of offering advanced care. Also available packaged with MyLab Nursing or via Pearson eText.
