world mythology is a compilation of over 50 great myths and epics your students will gain an appreciation and understanding of ancient and modern cultures through myths and epics from the middle east greece and rome the far east and pacific islands the british isles northern europe africa and the americas an introduction and historical background supplement each myth questions at the end of each selection prompt analysis and response

in this 3rd revised edition each myth is accompanied by an introduction offering historical background to place it in context as well as suggestions for literary analysis the myths include some from the middle east greece rome far east pacific and the british isles

this volume offers eight approaches to myth its uses and purposes from viewing personal narrative as a form of healing myth to observing the atrocities committed daily arising from the most destructive form of myth the authors of the eight chapters here note that myths have existed from the beginning of the human race in a myriad of forms and serving a myriad of functions indeed the shared observation of these scholars is that humans have always been storytellers and always will be because myths are a part of the lives of every single person they are the story of us

this remarkable book is the most ambitious work on mythology since that of the renowned mircea eliade who all but single handedly invented the modern study of myth and religion focusing on the oldest available texts buttressed by data from archeology comparative linguistics and human population genetics michael witzel reconstructs a single original african source for our collective myths dating back some 100 000 years identifying features shared by this out of africa mythology and its northern eurasian offshoots witzel suggests that these common myths recounted by the communities of the african eve are the earliest evidence of ancient spirituality moreover these common features witzel shows survive today in all major religions witzel s book is an intellectual hand grenade that will doubtless generate considerable excitement and consternation in the scholarly community indeed everyone interested in mythology will want to grapple with witzel s extraordinary hypothesis about the spirituality of our common ancestors and to understand what it tells us about our modern cultures and the way they are linked at the deepest level

this examination of myths from around the world focuses on the role nature plays within mythology creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death the author identifies divinities who were direct representations of natural phenomena the transition of mythic representations from the paleolithic to neolithic period is discussed

informed by the anthropological research of professor donald e brown on human universals this book compiles 10 articles exploring the representation of common human cultural practices and concerns in literature cinema and language the book as a whole demonstrates not only that brown s human universals are shared by different cultures but most importantly that they have the potential to form a basis for inter and intra cultural communication and consolidation bridging gaps of misinformation and miscommunication both spatial and temporal the contributors are egyptian scholars who cross temporal and spatial boundaries and borders from africa and the middle east to asia europe and the americas and dive deep into the heart of the shared human universals of myth folklore and rituals dreams trauma cultural beliefs search for identity language translation and communication they bring their own unique perspectives to the investigation of how shared human practices and concerns seep through the porous boundaries of different cultures and into a variety of creative and practical genres of fiction drama autobiography cinema and media translation their research is interdisciplinary informed by anthropological social psychological linguistic and cultural theory and thus offers a

multi faceted and multi layered view of the human experience

a type of folklore myth is central to all cultures written by a leading authority and of use to high school students undergraduates and general readers this reference offers a convenient overview of the role of myth around the world the volume defines and classifies types of myth and provides examples from different cultural traditions it then overviews various approaches to studying myth this is followed by a look at myth in relation to its contexts such as religion politics and popular culture the volume closes with a bibliography of print and electronic resources and a glossary

world mythology is a compilation of over 50 great myths and epics your students will gain an appreciation and an understanding of ancient and modern cultures through myths and epics from the middle east greece and rome the far east and the pacific islands the british isles northern europe africa and the americas an introduction and historical background supplement each myth questions at the end of each section prompt analysis and response
