in recent decades there has been increasing focus on the role of formal education in empowering students social and moral development a wealth of research evidence has shown that helping students to develop their social and emotional competencies can encourage students personal growth and can also yield benefits including increased student engagement and decreased levels of drop out however much of what has been previously published in this field has focused on younger students and there has been a lesser focus on third level students and educators therefore there is a notable need for a single volume that synthesises the research that has been

conducted pertaining to emotional and social skills development in third level learning environments the key features of this text are a synopsis of key theories and research findings related to emotional intelligence and education an outline of potential solutions to the most prevalent barriers that have been found with respect to encouraging emotional and social skills development in third level settings and the provision of a tool kit of simple exercises for use in third level educational settings that are designed to help students develop a range of key aspects of emotional intelligence there are both financial and pedagogical incentives for third level colleges to invest in the provision of students social skills development therefore the primary focus of this book is to help students and educators reach their maximum potential and in doing so help encourage the development of emotionally intelligent colleges

every year the bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies within the systematic classification according to epoch region and historical discipline works are also listed according to author s name and characteristic keywords in their title

there is ample evidence about the negative effects business activity of all types can have on the provision of human rights equally there can be little doubt economic development usually driven through business activity and trade is necessary for any state to provide the institutions and infrastructure necessary to secure and provide human rights for their citizens the united nations and businesses recognise this tension and are collaborating to effect change in business behaviours through voluntary initiatives such as the global compact and john ruggie s guiding principles yet voluntary approaches are evidently failing to prevent human rights violations and there are few alternatives in law for affected communities to seek justice this book seeks to robustly challenge the current status quo of business approaches to human rights in order to develop meaningful alternatives in an attempt to breach the gap between the realities of business and human rights and its discourse this book was previously published as a special issue of the international journal of human rights

responsibility for future generations is easily postulated in the abstract but it is much more difficult to set it to work in the concrete it requires some changes in individual and institutional attitudes that are in opposition to what has been called the systems variables of industrial society individual freedom consumerism and equality the politics of sustainability from philosophical perspectives seeks to examine the motivational and institutional obstacles standing in the way of a consistent politics of sustainability and to look for strategies to overcome them it argues that though there have been significant changes in individual and especially collective attitudes to growth intergenerational solidarity and nature preservation it is far from certain whether these will be sufficient to encourage politicians into giving sustainable policies priority over other legitimate concerns having a philosophical approach as its main focus the volume is at the same time

interdisciplinary in combining political psychological ecological and economic analyses this book will be a contribution to the joint effort to meet the theoretical and practical challenges posed by climate change and other impending global perils and will be of interest to students of environmental studies applied ethics and environmental psychology
