in context is an intermediate level integrated reading text which combines high interest contemporary topics with comprehensive skill strategy practice

provides a step by step blueprint of cultural dynamics defining the boundaries between matter and life life and culture and animal culture versus human culture with all these basic concepts the author sets the stage for a renewal of anthropological enquiry

the authors of this volume argue that urban education is in urgent need of reform and that although there have been plenty of innovative and even promising attempts to improve conditions most have been doomed the reason for this they agree lies in the failure of our major cities to develop their civic capacity the ability to build and maintain a broad social and political coalition across all sectors of the urban community in pursuit of a common goal

the study of the effects of context defined here as a geographically bounded social unit on individuals is a new and rapidly developing field this unique volume reviews this development both quantitatively and qualitatively examines how and why individual political behavior can be influenced by various contextual characteristics of the locality in which the individual resides and proposes a conceptual framework to guide future research a separate chapter is devoted to exploring methodological problems unique to this field of study this is the first study to integrate and synthesize the diverse existing research and to provide an overall approach to the field while the authors conclusions do not contradict the dominant views in the field they do challenge prevailing emphases and approaches stressing the importance of structural and global effects the utility of an information flow approach to contextual effects and new methodological strategies even readers without strong statistical backgrounds will find this volume both accessible and informative the volume first reviews the history of contextual studies defining contextual analysis and offering a taxonomy of contextual effects and then reviews relevant literature to integrate compare and assess the range of empirical work in the field chapter three constructs an overarching approach to the study of context based on the concept of information flow and is followed by a discussion of the methodological difficulties that have made the study of contextual effects a contentious one the increasingly important area of modeling contextual effects is reviewed next and directions for future research are suggested the final chapter looks at several understudied areas in contextual effects that could benefit from scholarly attention though scholarly this readable volume is aimed at a broad audience and will be of particular interest to those concerned with political behavior including political scientists sociologists urbanologists geographers and social psychologists

an international quarterly devoted to intellectual history

in reexamining john adams s political thought thompson reconstructs the contours and influences of adams s mental universe the ideas he challenged the problems he considered central to constitution making and methods of his reasoning

this collection offers alternative explanations of local actions with a focus on conflict it features examples of experiences selected from various cities it examines how the responses of local governments to specific issues are influenced by such factors as political culture and intitutions

a collection of thirteen essays considered classics in the field of urban politics from leading scholar clarence stone with new essays by the editors and by stone

himself that contextualize the impact of his previous works and suggest new directions for researchers
