the handbook of personality assessment provides comprehensive guidance on the administration scoring and interpretation of the most widely used instruments written by two of the field's foremost authorities. This well-balanced guide blends theory and application to provide a foundational reference for both graduate students and professionals, updated to reflect the most current advances. This second edition includes new chapters on the Minnesota Personality Inventory-Restructured Form and the Rorschach Performance Assessment System, along with in-depth coverage of the MMPI-2, MMPI-2-A, MCMI-IV, PAI, NEO-PI-R, Rorschach Comprehensive System, TAT, and Figure Drawing and Sentence Completion methods. Each instrument is discussed in terms of its history, administration, scoring, validity, assessment, interpretation, applications, and psychometric foundations. Other chapters address ethical considerations and provide general guidelines in the assessment process. *Personality Assessments: Guide, Recommendations, in a Broad Range of Clinical, Health Care, Forensic, Educational, and Organizational Settings*. This book delves deeply into the nature and appropriate use of the major assessment instruments, with authoritative insight and practical guidance. Review the latest concepts, research, and practices; administer, score, and interpret the most widely used instruments; understand the psychometric foundations of personality assessment; access downloadable sample reports that illustrate software interpretation; and understand how an individual's nature and disposition can be assessed in several ways. This book focuses on standardized psychological tests that assess personality characteristics and indicate how a person is likely to think, feel, and act. The results can only be as accurate as the process, from assessment selection and administration to scoring, interpretation, and beyond. The handbook of personality assessment is an invaluable resource for every stage of the process.
