in a sensitive and compelling account of the lives of those at the very bottom of indian society oliver mendelsohn and marika vicziany explore the construction of the untouchables as a social and political category the historical background which led to such a definition and their position in india today the authors argue that despite efforts to ameliorate their condition on the part of the state a considerable edifice of discrimination persists on the basis of a tradition of ritual subordination even now therefore it still makes sense to categorise these people as â untouchables the book promises to make a major contribution to the social and economic debates on poverty while its wide ranging perspectives will ensure an interdisciplinary readership from historians of south asia to students of politics economics religion and sociology

although gandhi has been the subject of hundreds of books and an oscar winning film there

has been no sustained study of his engagement with major figures in the indian independence movement who were often his critics from 1920 1948 this book fills that gap by examining the strengths and weaknesses of gandhi s contribution to india as evidenced in the letters speeches and newspaper articles focused on the dialogue debate between gandhi and jawaharlal nehru rabindranath tagore sri aurobindo bhim rao ambedkar annie besant and c f andrews the book also covers key groups within india that gandhi sought to incorporate into his independence movement the hindu right muslims christians and sikhs and analyzes gandhi s ambiguous stance regarding the hindi urdu question and its impact on the independence struggle

for the solution of the caste question buddha is not enough ambedkar is not enough either marx is a must this is neither buddha s biography nor ambedkar s further it is not marx s biography either this is a discussion concerning the dalit question based exclusively on ambedkar s writings however i have confined myself only to those writings that deal with the dalit question and caste system ambedkar had also discussed other issues like division of labour division of labourers poverty unemployment and economic exploitation these issues are connected with the dalit question and the caste system hence all these issues find place in this book ambedkar had also written on other themes like the problem of the rupee and large scale industry but i have not included those issues which are not directly connected with the dalit question even regarding gandhi i have not considered issues other than those ambedkar cited in connection with the dalit question for the purpose of this essay i wanted to rely only on ambedkar s writings but in couple of contexts where i could not find relevant information in ambedkar s works i had to turn to a few references from his biographies i have given these details in the respective contexts the world needs the theory that is powerful enough to illuminate the path it is irrelevant whether that theoretician is buddha marx ambedkar or someone else that which remedies the disease alone is a medicine that which emancipates from sufferings alone is the higher path if it is buddhism we are obliged to follow it to revere it the question however is to ascertain which is the higher path this is the thing which we must ascertain we are obliged to follow the thing which we ascertain to be the higher path we need to read ambedkar s writings in order to arrive at a correct understanding of many issues which he discussed the caste system untouchability poverty buddhism marxism etc we have to read them carefully and seriously whatever we read we have to take everything that is useful we have to follow it we have to correct whatever needs correction we have to abandon whatever is not useful to

do all this however we must first understand ambedkar s ideas correctly problems like castes and untouchability are not things that have arisen so to speak yesterday or today they have been entrenched for thousands of years but we don t have any written literatureother than religious texts and some inscriptionsthat tells about them the available sources may not be useful in many contexts yet they may be useful to some extent in some contexts when we don t find clear cut bases for the problems however there is no way out except attempting to understand them by means of our own logic

exploring the enduring legacy of untouchability in india this book challenges the ways in which the indian experience has been represented in western scholarship the authors introduce the long tradition of dalit emancipatory struggle and present a sustained critique of academic discourse on the dynamics of caste in indian society case studies complement these arguments underscoring the perils and problems that dalits face in a contemporary context of communalized politics and market reforms

bhimrao ramji ambedkar popularly known as babasaheb ambedkar was an indian jurist economist politician and social reformer who inspired the dalit buddhist movement and campaigned against social discrimination towards untouchables while also supporting the rights of women and labour

this book addresses the problem of untouchability by providing an overview of the subject as well as penetrating insights into its social and religious origins the author persuasively demonstrates that untouchability is a deeply ambiguous condition neither inside nor outside society reviled yet indispensable untouchables constitute an original category of social exclusion the situation of untouchables is crucial to the understanding of caste dynamics especially in contemporary circumstances but emphasis particularly within anthropology has been placed on the dominant aspects of the caste system rather than on those marginalized and excluded from it this book redresses this problem and represents a vital contribution to studies of india hinduism human rights sociology and anthropology jacket
