a collection of fourteen articles on connected speech of interest to teachers researchers and materials developers in both esl efl and japanese

this book argues that teachers of multiple languages tmls form a distinct group of language teachers and that the study of this largely overlooked demographic group can reveal new insights into how we perceive and research language teachers the book highlights the narratives of three tmls from diverse global contexts examining their journeys in navigating their careers as well as traversing multiple worlds and developing additional ways of being through new identities beliefs and emotions the author offers new globally relevant insights for language teaching research at individual pedagogical and institutional level and demonstrates that teaching multiple languages is an emerging transnational phenomenon that cuts across age languages countries institutions and career stages by furthering our understanding of why and how some multilingual language teachers have expanded and changed their careers through teaching additional languages the book offers a new perspective on how language teaching careers are changing in an increasingly globalized multilingual world

this edited book focuses on the role of different types of pedagogical solutions in the acquisition of the japanese grammatical system by reviewing assessing and measuring current theory and research findings from this research have implications for the way japanese grammar is learned and taught in a classroom context the editors and contributors address a number of questions around the role of japanese grammar learning and teaching such as what is the role of instruction in japanese second language acquisition what are the main findings of empirical research into the acquisition of japanese grammar is any one particular pedagogical intervention or solution to the teaching of japanese grammar more effective than another what pedagogical options do we have for the teaching of japanese grammar this book offers a unique insight into its practical implications for japanese language learning and teaching for applied linguists researchers language teaching professionals and curriculum developers alike

an absolutely unique work in linguistics publishing full of beautiful maps and authoritative accounts of well known and little known language encounters essential reading and map viewing for students of language contact with a global perspective prof dr martin haspelmath max planck institut für evolutionäre anthropologie the two text volumes cover a large geographical area including australia new zealand melanesia south east asia insular and continental oceania the philippines taiwan korea mongolia central asia the caucasus area siberia arctic areas canada northwest coast and alaska united states area mexico central america and south america the atlas is a detailed far reaching handbook of fundamental importance dealing with a large number of diverse fields of knowledge with the reported facts based on sound scholarly research and scientific findings but presented in a form intelligible to non specialists and educated lay persons in general

this book explores native speakerism in modern language teaching and examines the ways in which it has been both resilient and critiqued it provides a range of conceptual tools to situate ideological discourses and processes within educational contexts in turn it discusses the interdiscursive nature of ideologies and the complex ways in which ideologies influence objective and material realities including hiring practices and more broadly speaking unequal distributions of power and resources in closing it considers why the diffusion and consumption of ideological discourses seem to persist despite ongoing critical engagement by researchers and practitioners and proposes alternative paradigms aimed at overcoming the problems posed by the native speaker model in foreign language education
