A widely respected legal scholar Islamist activist and renowned host of Al Jazeera's most popular religious program *Sharia and Life* Yusuf Al Qaradawi is an extremely controversial figure in contemporary Islamism when he was a young man Qaradawi attended a lecture by Hassan Al Banna founder of the Muslim Brotherhood and immediately joined the organization's youth wing after earning his degree in theology at Al Azhar University in Cairo Qaradawi settled in Qatar where he played a pivotal role in establishing a system of Islamic higher education when the Muslim Brotherhood was forced underground in the 1960s Qaradawi eschewed a formal position with the movement opting instead to pursue a career as a major writer and ideologist of contemporary Islamist thought beginning in the mid 1970s Qaradawi became one of a handful of Islamist Ulama Muslim scholars who were accepted as authorities on doctrinal and political matters both by Islamists and within the wider Islamic resurgence Bettina Gräf and Jakob Skovgaard Petersen provide the first book length treatment of Yusuf Al Qaradawi in English since the 1990s Qaradawi has cleverly exploited new media to reach a global audience he was one of the first Sunni scholars to launch his own site and is heavily involved with Islam online having just celebrated the ten year anniversary of *Sharia and Life* Qaradawi is unquestionably the most important Sunni religious figure in the world today and these essays initiate readers into his immensely influential speeches and thought

In the hierarchy of Islamic faith and religious duties Zakat is next only to the acclamation of Allah's unity and prophecy of Muhammad peace be unto him and the five daily prayers it is rather significant that a measure of far reaching economic consequences should find such a high place in that hierarchy and be counted as one of the five pillars of Islam Zakat is doubly important in the way of life that is Islam on the one hand it is a means of spiritual purification and on the other a way to regain balance and equilibrium in social and economic life one would expect religious scholars as well as economists not to miss these points and pay due attention to this unique institution however the subject of Zakat did not attract the attention of contemporary scholars to an extent commensurate with its importance there is a need for economists legal experts and Shariah scholars who would elaborate and analyze the law of Zakat in a contemporary manner Sheikh Yusuf Al Qardawi's book is one of those exceptions to the above

which give one the needed hope and reassurance to carry on first published more than 3 decades ago fiqh al zakat still remains unparalleled in its comprehensiveness exposition and depth it is therefore with great pleasure that we present it to the english reading public shaykh yusuf al qaradawi born in egypt 1926 one of the most prominent scholars of the 20th century he memorized the quran before the age of 10 he is an expert on principals of islamic jurisprudence fiqh arabic language and other islamic sciences he has published over 100 books which are bestsellers in the islamic world his books cover various topics such as fiqh how to understand the sunnah how to understand the qur an a two volume book on zakat which is considered by many scholars as a treasure house for the islamic library environment fiqh of minorities poetry and many other topics shaykh al qaradawi represents an original effort to make the comprehensive rules of islam accessible and understandable to non specialists and he always tries to join between the principles of the religion and the problems facing the muslims today

the muslim brotherhood is often represented in mainstream media as a theocratic organisation that preaches qur an based violence and is out to grab power in the west as this book shows such representations are wrought with prejudice and oversimplification the organisation is in reality much more dynamic and diverse its goals ideology and influence have never been static and vary greatly amongst its descendants in both europe and the middle east joas wagemakers introduces the reader to this fascinating organisation and the major ideological and historical developments that it has gone through since its emergence in 1928

the modernist apologetic approach to the relation between revelation and science and politics has been a central part of arab discourses on the future of muslim societies for over a century this approach introduced historical and theological narratives and interpretative mechanisms that contextualize reason and freedom in islamic terms to argue that unlike with christianity it is possible for muslim societies to be technologically and politically advanced without forfeiting revelation as an all encompassing legally binding guide scientific and political freedom in islam critically examines the coherence and consistency of modernist apologetic scholars this is done through a discussion of their general theorizing on reason and freedom which is then followed by discussions of their commentaries on specific scientific and political issues in light of their general theorizing regarding the former the focus is darwin s theory of evolution while the universality of the biblical flood the heliocentric model the big bang model

and freudianism are also discussed regarding the latter the focus is islam s desired structure of government and concept of participatory politics while individual freedoms are also discussed the book argues that the modernist apologetic approach has great potential to be a force for liberalization but also possesses inherent limitations that render its theory on the relation between revelation and freedom self contradictory introducing a significant body of new information on the reasons for the failure of secularism and democracy and the attitudes towards darwinism in the arab world this book is a valuable resource for students and scholars of islamic studies comparative religion democracy studies and evolution studies
