a c bradley put shakespeare on the map for generations of readers and students for whom the plays might not otherwise have become real at all writes john bayley in his foreword to this edition of shakespearean tragedy lectures on hamlet othello king lear and macbeth approaching the tragedies as drama wondering about their characters as he might have wondered about people in novels or in life bradley is one of the most liberating in the line of distinguished shakespeare critics his acute yet undogmatic and almost conversational critical method has despite fluctuations in fashion remained enduringly popular and influential for as john bayley observes these lectures give us a true and exhilarating sense of the tragedies joining up with life with all our lives leading us into a perspective of possibilities that stretch forward and back in time and in our total awareness of things

these lectures are based on a selection from materials used in teaching at liverpool glasgow and oxford and i have for the most part preserved the lecture form the point of view taken in them is explained in the introduction i should of course wish them to be read in their order and a knowledge of the first two is assumed in the remainder but readers who may prefer to enter at once on the discussion of the several plays can do so by beginning at page 89 any one who writes on shakespeare must owe much to his predecessors where i was conscious of a particular obligation i have acknowledged it but most of my reading of shakespearean criticism was done many years ago and i can only hope that i have not often reproduced as my own what belongs to another preface

in this compact yet comprehensive exploration of shakespeare's romances robert w uphaus suggests that the romances bring us to a realm of human and dramatic experience that is beyond tragedy the inexorable movement of tragedy toward death and a final close is absorbed in romance by a further movement in which death can lead to renewed life characters can experience a second time of joy and peace and the audience's conventional expectations about reality and literature are challenged and enlarged in the late tragedies of king lear and antony and cleopatra uphaus finds the tragic structure augmented by elements that will later contribute to the form of the romances turning then to the romances themselves he sees these plays as forming a profession in which pericles is a brilliant outline of the conventions of romance and cymbeline is romance taken to its dramatic limits in fact to the point of parody through his fresh and provocative readings of the plays we experience anew the delight of shakespearean romance and glimpse the world of renewal at its heart
