The friendship of the bachelor politicians James Buchanan 1791-1868 of Pennsylvania and William Rufus King 1786-1853 of Alabama has excited much speculation through the years. Why did neither marry? Might they have been gay or was their relationship a nineteenth century version of the modern day bromance in bosom friends? The intimate world of James Buchanan and William Rufus King Thomas J. Balcerski explores the lives of these two politicians and discovers one of the most significant collaborations in American political history. He traces the parallels in the men's personal and professional lives before elected office including their failed romantic courtships and the stories they told about them. Unlikely companions from the start, they lived together as congressional messmates in a Washington DC boardinghouse and became close confidantes around the nation's capital. The men were mocked for their effeminacy and perhaps their sexuality and they were likened to Siamese twins. Over time their intimate friendship blossomed into a significant cross sectional political partnership. Balcerski examines Buchanan's and King's contributions to the Jacksonian political agenda, manifest destiny and the increasingly divisive debates over slavery while contesting interpretations that the men lacked political principles and deserved blame for the breakdown of the union. He closely narrates each man's rise to national prominence as William Rufus King was elected vice president in 1852 and James Buchanan the nation's fifteenth president in 1856 despite the political gossip that circulated about them while

exploring a same sex relationship that powerfully shaped national events in the antebellum era bosom friends demonstrates that intimate male friendships among politicians were and continue to be an important part of success in american politics
