toward the beginning of 2013 i received reports of passages in the black notebooks that offered observations on jewry or as the case may be world jewry it immediately became clear to me that the publication of the black notebooks would call forth a wide spread international debate already in the spring of 2013 i had asked professor friedrich wilhelm von herrmann last private assistant and in the words of my grandfather the chief co worker of the complete edition if he might review the notebooks as a whole based on his profound insight into the thought of martin heidegger and in particular review those jewish related passages that were the focus of the public eye publications about the black notebooks quickly came to propagate catchy expressions such as being historical anti semitism and metaphysical anti semitism the first question that obviously arises is does the thought of martin heidegger exhibit any kind of anti semitism at all in this book professor von herrmann now advances his hermeneutic explication with professor francesco alfiere of the pontificia università lateranense he has found a colleague who has drawn up a comprehensive philological analysis of volumes ga 94 through ga 97 of the complete edition the fact that heidegger designated the hitherto published black notebooks as ponderings Überlegungen and as observations anmerkungen has been given little consideration he intentionally placed them at the conclusion of the complete edition because without acquaintance with the lectures and above all with the being historical treatises that would come to be published in the framework of the complete edition they would not be comprehensible arnulf heidegger

although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything an important aspect of the urban bishop has long been neglected his role as demonologist and exorcist when the emperor constantine made christianity the official religion of the realm bishops and priests everywhere struggled to christianize the urban spaces still dominated by greco roman monuments and festivals during this period of upheaval when congregants seemingly attended everything but their own orthodox church many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic in city of demons dayna s kalleres investigates this developing discourse and the church sponsored rituals that went along with it showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped christian life in the fourth century
