taking up the historical evolution of darwin and his theories and the cultural responses they have inspired reflecting on darwin poses the following questions how are the apparatuses in the mid nineteenth century and at the turn of the twenty first century interconnected with bio scientific paradigms in art literature culture and science how are naturalism determinism and darwinism the eugenics of the nineteenth century and the genetic coding of the twentieth century positioned embodied and staged in various media configurations and media genres and how have particular media apparatuses formed displaced or stabilized the various concepts of humankind in the

framework of evolutionary theory ranging from the early circulation of darwin s ideas to the present this interdisciplinary collection pays particular attention to darwin s postmillennial reception beginning with an overview of the historical development of contemporary ecological and ethical fears reflecting on darwin then turns to darwin s influence on contemporary media neo victorian literature and culture science fiction literature and film and contemporary theory in examining the plurality of ways in which darwin has been rewritten and reappropriated this unique volume both mirrors and inspects the complexity of recent debates in victorian and neo victorian studies

the term annotation is associated in the humanities and technical sciences with different concepts that vary in coverage application and direction but which also have instructive parallels this publication mirrors the increasing cooperation that has been taking place between the two disciplines within the scope of the digitalization of the humanities it presents the results of an international conference on the concept of annotation that took place at the university of wuppertal in february 2019 this publication reflects on different practices and associated concepts of annotation in an interdisciplinary perspective puts them in relation to each other and attempts to systematize their commonalities and divergences the following dynamic visualizations allow an interactive navigation within the volume based on keywords wordcloud matrix edge bundling

our lives depend on automotive cybersecurity protecting us inside and near vehicles if vehicles go rogue they can operate against the driver s will and potentially drive off a cliff or into a crowd the automotive security analyzer for exploitability risks autosalfer evaluates the exploitability risks of automotive on board networks by attack graphs autosalfer s multi path attack graph algorithm is 40 to 200 times smaller in ram and 200 to 5 000 times faster than a comparable implementation using bayesian networks and the single path attack graph algorithm constructs the most reasonable attack path per asset with a computational asymptotic complexity of only  $O(n \log n)$  instead of  $O(n^2)$  autosalfer runs on a self written graph database heuristics pruning and homogenized gaussian distributions and boosts people s productivity for a more sustainable and secure automotive on board network ultimately we enjoy more safety and security in and around autonomous connected electrified and shared vehicles

international trade in high value perishables has grown enormously in the past few decades in the developed world consumers now expect to be able to eat perishable produce from all parts of the world and in most cases throughout the year perishable plant products are however susceptible to physical damage and often have a potential storage life of only a few days given their key importance in the world economy crop post harvest science and technology perishables devotes itself to perishable produce providing current and comprehensive knowledge on all the key factors affecting post harvest quality of fruits and vegetables this volume focuses explicitly on the effects and causes of deterioration as well as the many techniques and practices implemented to maintain quality though correct handling and storage as highlighted throughout regular losses caused by post harvest spoilage of perishable products can be as much as 50 a complete understanding as provided by this excellent volume is therefore vital in helping to reduce these losses by a significant percentage compiled by members of the world renowned natural resources institute at the united kingdom s university of greenwich with contributions from experts around the world this volume is an essential reference for all those working in the area researchers and upper level students in food science food technology post harvest science and technology crop protection applied biology and plant and agricultural sciences will benefit from

this landmark publication libraries in all research establishments and universities where these subjects are studied and taught should ensure that they have several copies for their shelves

this book ambitiously weaves together history and politics to explain all of the major situations where mass atrocities have occurred or been prevented over the 15 years since the responsibility to protect r2p was adopted at the 2005 un world summit the author provides a history of human rights mass atrocities and the principle of the r2p from the perspective of someone whose day job has been to work with the un security council various governments and civil society to help ensure the international community does not fail those who face the threat of genocide war crimes and crimes against humanity today it examines the implementation of the controversial principle of r2p since 2011 and how we end the politics of impunity indifference and inaction once and for all using case studies from iraq syria myanmar and libya the book offers a unique perspective regarding how we make never again a living principle rather than a cliché and how we end the politics of impunity indifference and inaction once and for all it will be of especial interest to scholars students and policymakers working in the fields of international politics or concerned about human rights atrocities the united nations and international justice in the world today

disrupting ageism from theory to practice delves deep into the issue of ageism in society guiding readers through an eye opening journey part one explores the influence of ageism on physical and brain health identity and trauma while highlighting its intersection with other forms of discrimination such as ableism through poignant anecdotes and thought provoking research the book underscores the distressing reality of ageism s role in instances of abuse part two focuses on solutions to break the shackles of ageism uncovering its subtleties in healthcare industry and media it also dissects the portrayal of older adults policy politics and law part three emphasizes intergenerational programming adult education and the power of individual narratives in reshaping perceptions fostering meaningful social connections and addressing broader societal factors that contribute to loneliness provides evidence that is grounded in gerontological theory the evidence based and gerontological practice addresses topics including how ageism intersects with other forms of oppression how ageism is a form of trauma and how ageism can be related to abuse in later life presents an examination of solutions to combat ageism in various domains of society focuses on the construction of elderhood both at the societal and individual levels

the importance of training and education is on the increase while the production of human capital is seen as a motor for a competitive economy skills and expertise proof to be necessary for social mobility remarkably in conceiving modern forms of apprenticeship several mechanisms from the acien regime seem to return the difference between public and private initiative is disappearing education and training is being confused and in order to acquire generic skills as flexibility communicability self rule creativity and so on youngsters have to learn in context even for maths scholars now talk of situated learning before the advent of a formal schooling system training took place on the shop floor under the roof of a master the apprentice not only worked but also lived in his master s house and was thus trained and educated at the same time in cities this system was formally complemented by an official apprenticeship system prescribing a minimum term to serve and an obligatory masterpiece for those who wanted to become masters themselves traditionally historians see this as an archaic and backward way of training yet this book s aim is to show that it was instead a very flexible and dynamic system perfectly in tune with the demands of an early modern economy in order to understand it fully however we should differentiate the informal training system organised via a free market of indentures on the one hand and the institutionalised system of craft guilds on the other in antwerp early modern guilds had a project of emancipating their members they didn t simply produce certain skills but through a system of quality marks defended the honour of craftsmen this is the difference with current practices by representing hands on skills as superior guilds supplied a sort of symbolic capital for workers

introduction to the knowledge and skills needed to manage all linux distributions covers the objectives for the comtia linux certification exam and the novell certification linux professional novell clp practicum exam

this book introduces readers to the basics of novell s suse linux enterprise server configuration and administration hands on labs and plenty of practical examples will guide learners in the management of users file systems software system initialization and processes in addition readers will explore the configuration and maintenance of various network services used on local and remote networks at the end of the book a series of questions fuse the essential principles with additional discovery exercises to help users prepare for the novell certified linux professional clp practicum certification exam back cover
