now in its second edition chris bajada from uts takes an exciting new approach to teaching business students the essentials of economics this text is designed for the one semester subject with thirteen core chapters and six supplementary extension chapters

beginning with a review of the extent of undeclared work the author discusses the discrepancies between regions and the potential impacts of the economic crisis comparing the nature of the potential solutions available with those actually adopted th

this two volume set brings together a selection of key articles which examine the shadow economy and its relationship with underground activities the set contains important work on surveys and conceptual considerations theoretical approaches and policy implications it further focuses on the empirical results of studies into the shadow economy and considers tax evasion tax compliance tax morale and government institutions this authoritative publication will be of interest to anyone seeking a comprehensive investigation into the shadow economy

bringing together top international researchers this book provides a worldwide coverage of underground economic activities it presents estimates of the underground economy for 145 countries the most comprehensive ever undertaken an in depth examination of the underground economy for a select number of these countries and an analysis of the public policy implications through an assessment of how various governments have

attempted to address this issue the book brings together the latest research on tax evasion tax morale and other underlying factors that have so significantly influenced participation in the underground economy it provides a comprehensive overview of the size and development of the underground economy its major causes and motivations and its effects on the legitimate economy in addition it reviews recent public policy concerns by a number of countries and how they have responded with measures to curb these underground economic activities

much has been written about the many economic benefits of globalization and the triumph and spread of democratic liberalism with the end of the cold war following the demise of the soviet union this work takes issue with such wine and roses perspectives about the future of the western democracies and their faith based views on the moral purity of a globalized marketplace it also questions many of the assumptions found in the status quo reinforcing discipline of international political economy ipe a discipline that focuses on the formal and legitimate economies and the façade they present that international relations and commerce is still dominated and dictated solely by the old westphalian state centric system having highlighted these concerns this book looks at two major themes the first theme focuses on the theoretical perception that a dark renaissance is taking place globally one in which the western liberal democracies and its citizens are ill prepared to respond because it exists at the trans civilization level bridging the modern to the post modern world the second theme focuses on the actual process of state deconstruction that is taking place this process is leading to what may become the very undoing of the democracies drawing together experts from a variety of backgrounds this work explores the increasing shift away from formal based capitalism and evaluates through case studies how different states are responding to the challenges they face this work will be of great interest to students and scholars of international political economy

this original and insightful handbook presents the latest research on the size and development of the shadow economy also known as the black or underground economy an integral component of the most developing and many developed countries economies

this book brings together two leading researchers in the field to provide a comprehensive overview of the shadow economy from a global perspective reviewing the advantages and disadvantages of different ways of measuring the informal sector the authors evaluate its size and key determinants across the world williams and schneider clearly establish the persistence and prevalence of the shadow economy analysing the narrowness of existing policy approaches and explaining how these fail to address the key factors for its existence and may even exacerbate the problem proposing an alternative way forward the authors argue that little headway will ever be made in reducing the shadow economy until there are changes not only to the character of formal institutions but also informal institutions the values beliefs and norms of citizens through the introduction of macro level structural changes this timely cutting edge review of the global shadow economy and how it can be measured and tackled is an invaluable resource for postgraduate students researchers and policy makers particularly those with a interest in tax evasion and informal labour

though corruption exists wherever there is organized human life reports continue to show markedly higher levels of for example bribery kickbacks cronyism and nepotism across the asia pacific area particularly as compared to the developed anglo european west despite the prolonged and multiple attempts to combat corruption across the region especially in the wake of the asian financial crisis of 1997 2000 the challenges for business organizations in corporate asia remain arguably as formidable as ever business corruption in asia continues to affect the image behaviour performance and management of companies both local and foreign in the region against this backdrop this fresh collection of research sheds new insight into the antecedents manifestations and consequences of corruption in a changing asian business landscape as well as efforts to prevent manage and redress it this book will be of interest to those interested in international business especially in the asia pacific region and in business ethics it was originally published as a special issue of asia pacific business review

this title provides insights into the correlation and links between institutions shadow economy and corruption
