for thousands of years we have grown cooked and traded food and over that time much has changed where once we subsisted on gritty bland grains we now enjoy culinary creations and epicurean delights made with vegetables from the new world fish trawled from the deep sea and flavoured with spices from the orient but how did we make that change from eating for survival to the innovations of modern cuisine how has food helped to shape our culture and what will happen when global warming and peak oil have their inevitable effect on agriculture empires of food is an authoritative exploration of the innumerable ways that food has changed the course of history the earliest cities after all were founded on the creation and exchange of food surpluses and since then trade routes of ever greater sophistication have developed we ve built complex societies by shunting corn and wheat and rice along rivers up deforested hillsides and into the stockpots of history but we cannot go on forever as evan d g fraser and andrew rimas compellingly show the abundance that we all enjoy comes at a price and unless we think of a more sustainable way to grow eat and enjoy food we may find that our civilization reaches its best before date

using palestine as a case study recognition politics in settler colonial states shows how recognition politics operate to legitimize long standing colonial power

structures in existing scholarship recognition has been seen as an asset coveted by indigenous communities this book forwards a new theoretically ground breaking perspective emile badarin shows that in colonial contexts settlers use recognition to legitimize and normalize the dispossession and elimination of indigenous people more than this settler colonial states themselves actively pursue recognition employing it as a means to further the elimination of the indigenous societies they seek to replace in making the case the book critically examines the euromodern categories of race racism and racial hierarchies and draws new conclusions about the interplay between colonialism racism and zionism central to this analysis is how anti zionism has been strategically equated with anti semitism and effectively used as a tool for the advancement of both settler colonialism in palestine and israel s recognition on the international stage the book delves into indigenous normative resistance against colonial recognition politics through the lens of the palestinian practice of umud steadfastness extracting its philosophy of liberation as a pathway towards a decolonial future for all in palestine and beyond
