reflective network therapy describes a remarkably effective school based treatment method that harnesses small social networks for  
the good of seriously emotionally disturbed preschoolers or those with autism spectrum disorders the book provides an in depth  
explanation of the method including the work of parents peers teachers and mental health therapists the rnt method has a  
substantial evidence base with about the same number of treated children and a larger number of comparison and control cases  
as the published iq results of the most widely used school based method it has been used in many real life environments and is  
well tested for feasibility replicability iq effects and children s global mental health results the rnt method does not separate the  
child from peers by pairing him with an aide but is peer teacher and parent inclusive the cost benefits and human benefits are  
extraordinary
