thomas hardy the poet is undoubtedly an original critical work which throws ample

light on hardy a poetic genius so far neglected from several perspectives dr patil analyses and interprets hardy s poetic oeuvre in an altogether new critical idiom hardy as the author argues is more of a poet than of a novelist in fact he began his literary career as a poet and ended it in becoming a poet of high order only for the sake of livelihood he had to write novels in the middle phase throughout his life he was extremely in love with poetry historically speaking hardy is aptly considered to be a transition poet as he is the last victorian and the first modern like g m hopkins he made several experiments in writing poetry and firmly established the modern trend these things about the poet are not at all taken seriously by many of his critics but there are some like george saintsbury donald davie philip larkin and james g southworth who constantly urge that good hardy critics are wanted the present book explores in depth the truth and beauty of hardy s poetry what the earlier critics have missed is here painstakingly unearthed i e hardy s views on love nature society religion god and universe his evolutionary meliorism and scientific humanism are discussed at length his robust optimism and melancholic demeanour are also pointed at with a greater clarity and confidence all those who want to understand modern poetry must begin by reading this truly remarkable book dr mallikarjun patil was born in 1967 in a village in belgaum district in karnataka he graduated from karnatak arts college dharwar and obtained his m a degree from karnatak university he also did his ph d on the existential philosophy in thomas hardy s poetry in 1995 at present he is a lecturer in the department of studies in english in gulbarga university gulbarga he is a genuine scholar and a writer he writes critical articles and poems his radio talks are regularly on broadcast from air gulbarga his research articles are published in encyclopaedias and journals his another critical work hardy s poetry and existentialism is in press his sole ambition in life is to become a full fledged writer in english

treatment of hardy s tragic narratives under the objective lens of evolutionary literary theory has led to three basic findings first within the scope of the analysis of the five major tragic narratives representation of hardy s evolutionary aesthetics of human ethics in terms of altruistic sympathy and compassion shows that adapted parental investment in children indicates the reason why women submit to pain and suffering more than the men do the costly investment of women in maternal behaviour leads to submission in many cases but in return they gain better fitness for survival and reproduction than men this is implicitly highlighted as a force of superiority in the tragedies studied as the male characters often invest in heroic deeds over their children second that which has for many years been identified as pessimism in hardy s tragic narratives is in fact a surface cognitive layer under which is an implicit teaching of evolutionary aesthetics of human ethics which guides to a true fitness of human life third sympathy and particularly compassion are not only human emotions but also

adapted cognitive virtues that centre on ethical teaching thus an integrated model of science and humanities for art and literary analysis is required to address not only those of english language and literature departments but also those aligned to the idea of integrating the two methods a scientific and objective view of human life is in opposition to postmodern and structuralist approaches which have generally been considered as the centre of interest during the latter half of the 20th century

what do the works of thomas hardy offer us apart from tragedy this book intends to answer that question providing a groundbreaking reading of hardy s poetry that reveals a hitherto critically neglected optimism in doing so it seeks to challenge the dominant view of hardy s work as pessimistic it aims to demonstrate that hardy s poetry contains a surprising amount of hope and joy which when examined critically reveals to us a new and brighter view of his philosophy hardy s poetry is naturally more condensed than his fiction and his poems function as individual thought acts in which personal moments are more pronounced and sustained these thought acts enable him to emphasise moods that are not merely pessimistic but joyous and hopeful such optimistic examples are not anomalies rather pleasures such as dancing music eating and celebration perform a significant counterbalancing function across hardy s collection of over 900 poems in fully acknowledging these important brighter aspects we can see hardy s complex poetry as balancing an acute and profound understanding of life s hardships with an equally significant awareness and celebration of its pleasures
