the book makes a comprehensive coverage of cross cultural aspects of language assessment evaluating language tests naturalization and secondary school exit examinations and european language portfolios from quantitative and qualitative perspectives detailed discussion of computer assisted language testing with such aspects as language corpora mobile apps computer adaptive tests and learning management systems is framed in the cultural context the researcher evaluates opportunities of generative artificial intelligence in designing and adapting culturally sensitive tests examining culturally sensitive training of language assessment literacy of language teachers in technology rich contexts the book ends with guidelines and recommendations for language test designers and teachers

this book examines the challenges posed by english a foreign language as a language of teaching and learning for community secondary schools in tanzania in terms of academic performance the book probes the necessity for having two languages of instruction in the tanzanian educational system while kiswahili the native language is predominantly understood by the majority of people the discussion in this book indicates that most students in community secondary schools in tanzania are incompetent in understanding writing listening reading and speaking english a language they use in learning and doing their examinations especially in the early stages of their secondary studies the incompetence in the above mentioned skills is mostly caused by their inability to cope with the abrupt transition in the languages of instruction from their pre primary and primary school study kiswahili to secondary school study english moreover most teachers are unable to use the english language as a means to impart knowledge or facilitate learning to their students leading them to code switching and code mixing this book poses a challenge to countries whose students pass through a transition

from one language of instruction to another in their educational systems helping them to make appropriate decisions in regard to the appropriate language of teaching and learning

with the majority of the world population speaking more than one language cross language interactions associated with bi and multilingual language processing have recently received much scholarly attention while we know from psycholinguistic research that multilingualism modulates cognitive mechanisms of language processing previous studies have concentrated selectively on specific aspects and or stages of language processing with little cross disciplinary insight into multilingualism this contribution aims to systematize our knowledge of multilingual language processing by providing a comprehensive overview of the effects observed at the level of sub lexical orthographic and phonological lexico semantic and discourse processing further since comprehensive studies of multilingualism require other areas of research e g psychology sociology and linguistics the present volume will bring together multiple fields methods and perspectives to provide a cross disciplinary and diverse overview of the effects of multilingualism
